Certain statements in this annual report concerning our future growth prospects are forward-looking, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such statements. We have tried wherever possible to identify such statements by using words such as anticipate, estimate, expect, project, intend, plan, believe and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realized, although we believe we have been prudent in assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, our actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

Digital Transformation – redefined through Platformation™

Last year we had highlighted that the success of 'born digital' players, was due to their ability to think and execute platform based business models. We look at this as an interplay of value creation between seekers & providers, systems that enable this exchange and underlying data that powers value matching across participants. We further introduced the concept of Platformation™ as our unique approach to help customers in this journey to build open, connected, scalable and intelligent digital businesses.

We are pleased to note that since we announced our unique model of digital transformation, we have seen a wider acceptance of creating successful digital businesses through implementation of digital platforms.

Creating Digital Ecosystems

A recent McKinsey study states that Companies are creating digital ecosystems across industry segments, and by 2025, close to \$60 trillion in annual revenue could be redistributed across the economy through these digital ecosystems based on platform based business models. We believe this to be a reaffirmation that is in alignment with our pioneering Platformation™ proposition.

We have seen a few significant themes in the market in the last year, which could be success levers for the Platformation™ journey.

Businesses are being re-imagined to transform customer experience at scale. According to a report by Couchbase, 87% of business leaders are concerned that their revenues would drop if they couldn't uniquely improve their customer

experience. Industry vertical nuances are also playing a key factor in this journey. A case in point is how our focus industry segments are witnessing momentum in creating digital platforms.

We believe technology to be a strategic anchor for several of our customers in their digital journey. Re-imagining the platform architecture or the entire data journey are emerging as key enablers towards building open, connected, intelligent & scalable digital platforms. The technology environment, application build approach and the IT operations model work together as one system for creating this robust technology framework.

Customers are placing emphasis on change enablement as a critical success factor in this journey. We are in fact seeing a new breed of change leaders & specialists emerge to help customers succeed in the platform economy. Sonata is uniquely placed in a leadership position to address these mandates. Our Platformation™ approach is finding significant resonance with our customers, industry segments, partners and analysts, since we pioneered the Platformation™ concept a year ago.

From Diagnostics to Execution

The Platformation™ approach also gives us an extraordinary opportunity to redefine our competencies inside-out and in context to each of our customers' unique digital needs. This has resulted in a unified engagement and execution framework for Platformation™. Couple this with our industry ready IPs, deep domain experience, investments and expertise in nextgen technologies – we have created an ecosystem to co-innovate with customers, partners and thought leaders to envision and execute this journey. A case in point is how one of our customers who has embarked on the Platformation™ journey co-innovated the concept of Marchitecture. We believe this to be a unique blueprint and interplay of market needs that the customer operates in technology and data. The Platformation™ execution approach is flexible and amenable to specific customer needs. Sonata Ready, Sonata Accelerate and Sonata Custom are manifestations of our customer engagement and execution approach.

Our early successes with clients since the launch of Platformation™ and a wider acceptance of our model of digital transformation through platformation have resulted in us being chosen as a strategic partner for multiyear digital transformation programs for our customers. Our credentials and recognition in the last year are testimonials to the success of this approach. Sonata's industry ready IP Rezopia which

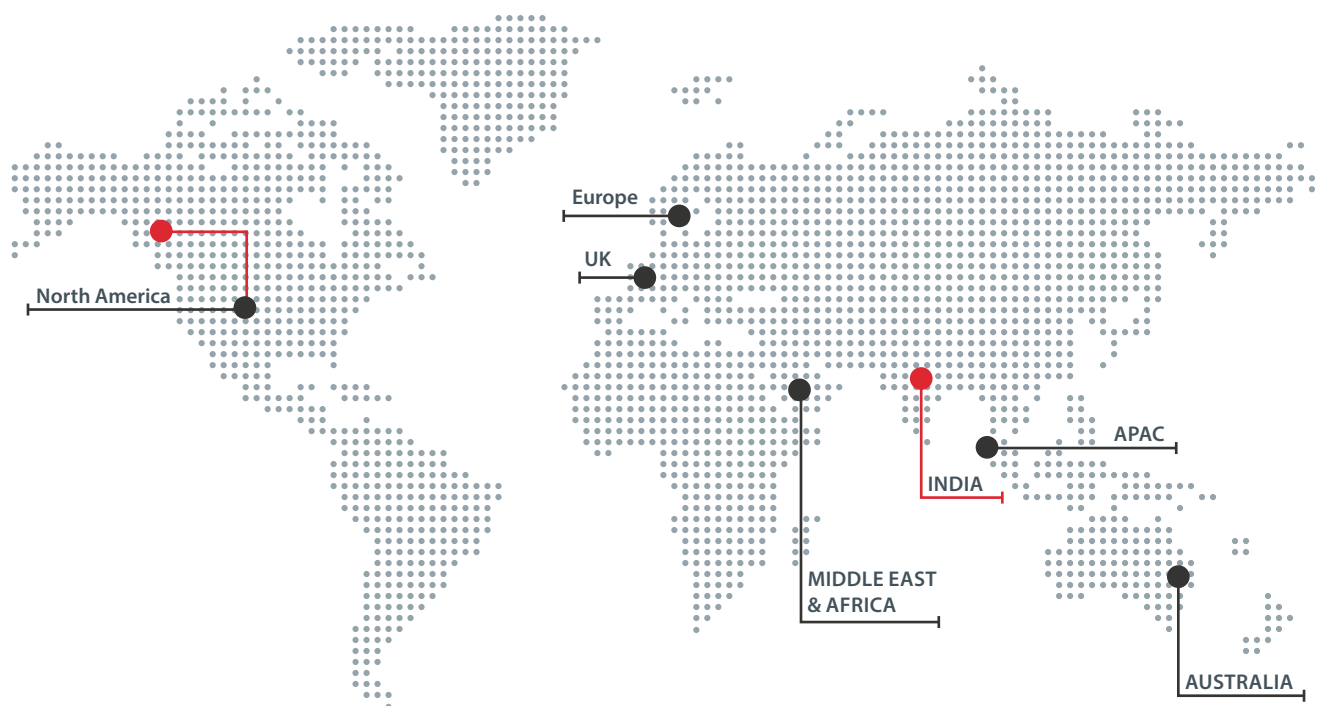

Design Thinking is in the DNA of our Platformation™ approach. This has helped customers re-imagine their digital strategy through a structured methodology from diagnostics to execution. Our customers have begun to embrace this approach to realize their digital imperatives. We believe this to be a multi-year journey with Sonata as the strategic partner that has a shared vision in this transformation.

is a key enabler in the Platformation™ framework for the travel industry segment, has been awarded the World Travel Award. Our partner ecosystem is key to the success of our strategy and execution. We continue to be recognized by the likes of Microsoft, SAP and Oracle as a valued strategic partner in this journey.

Sonata is also co-funding research and thought leadership with premier academic institutions like IISC, NIT and IIT in alignment to our Platformation™ strategy and fostering next-gen business and technology themes.

We believe all these place us in a unique leadership position to build upon the success and momentum we have created through our pioneering Platformation™ proposition over the last one year. We are well positioned as a strategic partner of choice in the digital transformation journey of our customers and "redefining digital transformation – through Platformation™".

Corporate Social Responsibility at Sonata

Sector: Traditional Arts, Textile and Handicrafts

Initiative: India's rich heritage of arts, textiles and handicrafts is well known. Equally well known is the fact that the custodians of our heritage - artisans, weavers and craftspeople - find it increasingly difficult to earn sustained livelihoods due to lack of access to markets, resources, customer trends and preferences.

We aim to build sustainable businesses for artisan clusters by providing tech-enabled market linkages beyond their traditional markets, and thus improve their livelihoods as well as that of the other players down the value chain. Technology also channels market information and design communication to help the handmade compete on a more level-playing field.

Sonata partners with Industree to develop an e-Commerce enabled storefront for Industree's creative manufacturing clusters. The platform is designed to connect artisans, especially those from remote, underserved zones to directly connect with urban consumers.

We also built a customer facing platform for Women Weave that allows weavers to showcase their design collections to prospective customers. The platform also enables weavers to receive orders and customization requests with regard to colors, design themes and yardage.

Partner: Industree Crafts Foundation, Women Weave

Location: Bangalore, Maheshwar

Sector : Technology Incubation & Entrepreneurship

Initiative : In keeping with our CSR vision - to leverage technology to 'Make a Deep Impact and Transform Lives'- we have chosen to especially foster the learning and practice of technology.

The partnership with CEDI-NITT is designed to provide technology startups an early opportunity to interact with industry and to enable a thorough understanding of market trends in business and technology that are crucial to success. Sonata supports CEDI- NITT (Incubation center) through technical and managerial mentorship as well as with a committed funding support in certain pre-identified technologies.

Partner : CEDI-NITT

Location : Trichy

Sector : Education and the Environment

Initiative : Our CSR activities in the Education vertical are implemented in collaboration with select institutions across a continuum - from primary and middle schools in rural areas and forest buffer zones to institutes of higher learning such as IISc, and onwards to training the trainers.

We back the Summer school program at IISc with the primary objective to introduce undergraduate students to cutting-edge research in Computer Science. We support ongoing research in our areas of focus, thus giving an assurance to students that pursuing research in technology is doable and sustainable.

To foster technical talent amongst students from economically challenged backgrounds, we offer scholarships and grants under our programs in colleges like SKSVMA Charitable Trust.

With the IIIT-B partnership, another premier academia -industry engagement program. Sonata through this program has demonstrated its commitment to accelerate the impact of technology on society. The 3-year project, funded by Sonata, will focus on research fellowships, evangelization of technology for digital transformation

Partner : CSA, IISc, SKSVMA Charitable Trust and IIITB

Location : Bangalore

Sector : Preservation of our Cultural Heritage

Initiative : Cultural heritage implies a shared bond, our belonging to a community. It represents our history and our identity; our bond to the past, to our present and the future.

Sonata has partnered with organizations actively involved in reviving and preserving our rich heritage as well as raising awareness amongst the general public of these historical treasures building tools to help

The karez at Bidar is a network of gradually sloping, subterranean water tunnels carved into permeable rock and accessed through vertical wells, allowing for water storage and distribution to local communities We have been instrumental in building a tool that helps historians, researchers and tourists get a 360 degree virtual tour of the Bidar Karez, Once restored, the karez is expected to alleviate the quality of life of the local population by increasing access to clean drinking water with minimum energy costs, and improving agricultural productivity as well.

BUSINESS PERFORMANCE

Your Company is primarily engaged in the business of delivering IT services and software solutions to its customers across the globe including the US, Europe, Middle-East, Asia- Pacific, Australia and New Zealand. Besides, the Company also distributes and re-sells products from global technology companies present in India. The Company's consolidated results comprises operations of Indian and Overseas Subsidiaries and operates under two distinct heads International IT services (IITS) and Domestic Products and Services (DPS).

The Financial Year 2017-18 witnessed the results of recent internal improvement programs and also reflected the positivity of the macro environment. The Company took significant strides in creating enhanced value for shareholders. During the financial year, the Company explored new growth opportunities and performed significantly well in both the domestic as well as international markets. It was reflected in PAT with growth of 28% in IITS and 6% in DPS business, respectively.

During the Financial Year, your Company continued to provide business solutions wrapped with IPs. The revenues through this strategy has resulted in a quicker growth and margin expansions.

This is a major differentiator for Sonata and forms the base of our Platformation strategy. The term 'Platformation' is now officially owned by your Company as it has been trademark registered in Singapore and applied for in the USA and India. Besides, your Company continued to invest in differentiated IP and platforms across industry verticals of Travel, Retail, Distribution and software solutions.

There are several other notable achievements during the financial year. These include:

- Registered and trademarked the enterprise digital platform for retail-Brick and Click in India for retail vertical

- Acquired the copyright of TRANSIT software in India for the travel vertical
- Acquired copyright registration for RETINA software in India
- Added fourth industry solution – HALOSYS – on Microsoft Appsource platform

Your Company further organised first Sonata Hackathon – HackAata 2017 that saw a participation of over 50 teams across Bengaluru, Hyderabad and UK offices. As a part of marketing initiative, your Company partnered with NASSCOM India Leadership Forum 2018 as a Gold Sponsor hosting a panel discussion on Platforms as a driver of digital success and conducted client leadership summit in USA-Sonata Spark 2017.

The performance reflects Sonata's journey to reposition itself as a unique technology solutions provider that is committed to develop an emerging breed of platforms, thus enabling its customers to gain competitive advantage through the Company's future-ready digital transformation initiatives. Sonata's differentiated Platformation solutions, better alignment with alliance partners and stronger investments in sales and marketing will lead to stronger new business development.

Coming to the results, both on a Standalone and Consolidated basis your Company has shown growth and placed itself well to handle its increasing scale of operation.

A detailed analysis of Company's operations in terms of performance in markets, manufacturing activities, business outlook, risks and concerns forms part of the Management Discussion and Analysis, a separate section of this Annual Report.

SECRETARIAL AUDIT REPORT

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No.9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2018

To
The Members,
Sonata Software Limited
CIN: L72200MH1994PLC082110

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Sonata Software Limited (CIN: L72200MH1994PLC082110) (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2018 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by Sonata Software Limited for the financial year ended on 31st March, 2018 according to the provisions of:

- (i). The Companies Act, 2013 (the Act) and the rules made there under;
- (ii). The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made there under;
- (iii). The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
- (iv). Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v). The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):
 - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009;
 - (d) The Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999;
 - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;
 - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009;
 - (h) The Securities and Exchange Board of India (Buy Back of Securities) Regulations, 1998; and
 - (i) SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015;
- (vi) The Industry specific laws applicable to the Company are as follows:
 - The Information Technology Act, 2000
 - The Special Economic Zone Act, 2005
 - Policy relating to Software Technology Parks of India and its regulations
 - The Indian Copyright Act, 1957
 - The Patents Act, 1970
 - The Trade Marks Act, 1999
- (vii) The other general laws as may be applicable to the Company including the following:
 - Karnataka Shops & Commercial Establishment Act & Rules
 - The ESI Act & General Regulations
 - The Employees Provident Funds & Miscellaneous Provisions Act
 - The Minimum Wages Act & Rules
 - The Payment of Wages Act & Rules
 - The Payment of Gratuity Act & Rule
 - The Payment of Bonus Act & Rules
 - The Maternity Benefit Act
 - The Equal Remuneration Act
 - The Employment Exchanges (CNV) Act & Rules
 - The Karnataka Labour Welfare Fund Act & Rules
 - Industrial Employment Standing Orders Act
 - The Karnataka (National & Festival) Holidays Act & Rules
 - The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act
 - For majority of Central Labour Laws the States have introduced Rules [names of each of the Rules is not included here]

- The Competition Act, 2002
- The Indian Contract Act, 1872
- The Sales of Goods Act, 1930
- The Indian Stamp Act, 1899
- The Transfer of Property Act, 1882

I have also examined compliances with the applicable clauses of Secretarial Standards issued by the Institute of Company Secretaries of India on the Board and General meeting i.e. SS-1 and SS-2.

During the period under review, the Company has complied with the provisions of the Acts, Rules, Regulations, Guidelines, Standards, etc. mentioned above. Certain non material findings made during the course of the audit relating to Company Law and Labour Laws were addressed suitably by the Management.

Further, I report that with regard to financial and taxation matters, I have relied on the draft Audit Report, Limited Review Report and the Internal Audit Report provided by the Statutory/Internal Auditor as the case may be.

I further report that

The Board of Directors of the Company is duly constituted with proper balance of Non-Executive Directors and Independent Directors. There were no changes in the composition of the Board of Directors during the period under review.

Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance (in certain instances, detailed notes on agenda were sent within seven days, with the consent of Directors), and a system exists for seeking and obtaining further information and clarifications on the agenda items before the Meeting and for meaningful participation at the Meeting.

Majority decision is carried through while the dissenting members' views are captured and recorded as part of the minutes as per the practice followed. However, during the period under report, there was no such case instance.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

GLOBAL ECONOMIC REVIEW 2017-18

International Monetary Fund's (IMF) World Economic Outlook anticipated a pick-up in global growth in 2017-18. In-line with this forecast, the world economy grew by 3.7% in 2017-18 as against 3.2% growth in 2016-17. The upward revision is due to a notable uptick in the economic performances of Europe and Asia. The world output is projected to grow at 3.9% in 2018 and 2019. This increased growth is likely to emanate from improved global growth momentum and the expected impact of the recently approved US tax policy changes. World trade has grown strongly in H2FY18, supported by a pickup in investment, particularly among advanced economies, and increased manufacturing output in Asia with strong consumer confidence.

INDIAN IT INDUSTRY

Information Technology (IT) has been one of the key driving forces fuelling India's economic growth. The Indian IT Services exports have been consistently outperforming the global technology growth and have recovered well after the global financial meltdown in 2008-09. Thriving on India's vast pool of low-cost technology graduates, Indian IT players penetrated developed markets, fiercely competing with global IT behemoths. In the late

Some parameters that were contradictory to this positive trend also emerged. Crude oil prices have risen by about 20% to over USD 60 per barrel supported by an improving global growth outlook, weather events in the United States, the extension of the OPEC and Russia agreement to limit oil production, and geopolitical tensions in the Middle East. Owing to increasing crude oil prices, the inflation rates in advanced and emerging economies rose in recent months. (Source: IMF World Economic Outlook). The US government policy on visas, especially H1B were particular factors affecting outsourced services. The political and military conflict in the Middle East also remained a factor impacting economic uncertainty in the EMEA geography. All the factors combine to make the year ahead a period for cautious optimism in terms of economic and IT industry growth.

INDIAN ECONOMIC OVERVIEW

According to IMF, India's GDP is projected to increase from 6.7% in 2017 to 7.4% in 2018 and 7.8% in 2019. The growth will be largely driven by strong private consumption as well as fading transitory effects of the currency exchange initiative and implementation of the national Goods and Services Tax (GST).

Over the medium term, growth is expected to gradually rise with continued implementation of structural reforms that raise productivity and incentivise private investment. It will consolidate country's position as the world's fastest growing economy, widening the gap with China. The conditions with respect to the Indian economy also thus tend to one of cautious optimism with some volatility in short term business and economic performance.

GLOBAL IT INDUSTRY

According to Gartner, the worldwide total IT spending is projected to a total USD 3.7 trillion in 2018, an increase of 4.3% from spending of USD 3.5 trillion in 2017. The vast majority of technology spending stems from purchases made by corporate or government entities. The growth is expected to be driven by the projects in digital business, Blockchain, Internet of Things (IoT) and progression from Big Data to algorithms to Machine Learning to Artificial Intelligence (AI).

1990s and early next decade, Indian IT players started to distinguish themselves from 'sources of cheap labour' to 'strategic partners', providing end-to-end services to their clients, adding capabilities such as Business Process Management, Digital Services and IT Consulting to their offerings kitty. Of late the industry is facing the heat of global slowdown, shrinking technology budgets, rising uproar over outsourcing in the developed markets, operational level challenges like wage inflation and attrition. However, the

industry has always been resilient and agile to transform itself to overcome the challenges.

Indian IT spending in 2017-18 is expected to end at USD 79.8 billion, up 14.2% from 2016. It is further expected to grow over 9% to USD 87.1 billion in 2018. According to the Edelweiss report on Information Technology 'Digital drive: The race begins', the domestic IT players are expected to witness a positive momentum owing to the increasing digitization drive.

KEY SECTORS FOR SONATA

Digital & Platform

Digital transformation has become the main theme for most businesses as they attempt to compete with new emerging competitors and are simultaneously transforming their businesses by leveraging new technologies to create new business models. With ever changing consumer behaviour and expanding technologies, it is challenging to keep up with new demands on businesses to be agile and flexible. Business executives are increasingly involved in taking IT buying decisions unleashing technology's power by developing new platforms. The platform-based business models and strategies are the driving force behind the most profound global macroeconomic change since the industrial revolution. In the digital economy, platform ecosystems are cornerstones for new value creation. As reported, Platform Companies represent USD 2.6 trillion in market capitalization worldwide in 2017. Different building blocks for digital and Platform companies are Cloud services, API strategy and architecture, mobile development platforms among others.

Sonata had already built its strength in terms of customers, people, technologies, processes, alliances and IP which helps it to leverage on success and has already succeeded in digitally transforming its clients. The Company has progressed well with its proprietary model of achieving digital transformation called Platformation™ that it announced last year.

Software Products

According to NASSCOM, the global ER&D spends have witnessed a robust CAGR of 7% since 2009. This is a sustainable growth as companies continuously pursue innovation to re-engineer their products as per market needs and align them with ever-improving technology. Moreover, with rising digital adoption, the role of ER&D will gain prominence in introducing new products or penetrating deeper into existing geographies. Digitization and user experience have been the central themes of today's software services. Several traditional OEMs are now re-branding themselves as technology firms. Platform-as-a-service, products-as-a-service and Big Data analytics are the new revenue drivers. Besides there have been new Cloud-based pricing models like pay-per-use. Investments are also being made on innovation labs and design centres to enable creation of indigenous & innovative solutions, establish strong IoT ecosystems as well as create a new genre of Cloud computing.

India continues to maintain its leadership in the offshore destinations in delivering engineering R&D services with a market share of 22%. The country has become a key contributor in global research and of growth in the Asia-Pacific (APAC) region, playing host to one-third of top 1,000 R&D spenders globally. According to a Zinnov study titled, 'Engineering R&D: Advantage India', the Indian market is expected to grow to USD 42 billion by 2020.

Travel & Tourism

Technology in Travel and Tourism plays a key role in achieving economic growth. The advancement of IT allows continuous communication and streamlines the guest experience, from

reservation to checkout or to make reservations and compare prices. Booking engines cut costs for travel businesses by reducing call volume and give the traveller more control over their purchasing process. The development of vertical portals has further redefined the travel business. This has led to the formation of various last minute online travel portals which effectively organize and distribute distressed tourism inventories to the clients. Global tourism suppliers have started applying e-Commerce applications, thereby allowing their customers to directly access the reservations systems. The advent and application of mobile technologies have further impacted the Tourism and Travel industries. The emergence of new and high tech mobile phones has stirred a revolution in mobile technology. It is estimated that over 150 million travellers now use the smartphone for planning travel, accommodation bookings, ticket bookings, cab booking, route mapping and more activities.

The Travel and Tourism Sector's contributes to 10.4% of global GDP. During 2017, it grew 4.6%, outpacing the global economic growth for seven consecutive years. Asian countries continued to drive the global tourism. Besides, Tunisia, Turkey and Egypt also witnessed strong recovery from the devastating impacts of terrorist activities. As global economic growth continues to accelerate during 2018, the outlook for the Travel & Tourism sector remains encouraging.

Retail and Distribution Industry

The e-Commerce industry comprised 10.2% of total global retail sales in 2017, up from 8.6% a year prior. According to eMarketer estimates, 2017 witnessed retail global e-Commerce sales touching USD 2.30 trillion, a 24.8% increase over the previous year. The growth was largely driven by Asia-Pacific region. Mobile was a key factor, as m-Commerce accounted for 58.9% of digital sales. Global m-Commerce sales rose 40.3% last year to USD 1.357 trillion, representing 6.0% of total retail expenditures. Markets with significant mobile spending include China, Japan, South Korea, the UK and the US. Growth has been helped along by consumers feeling more comfortable making purchases on their smartphones and, in some regions, a greater selection of low-cost items like apparel, which encourages impulse buying. Retailers are now focused on personalization for the customer and their shopping experience. The push now is to connect retailers with their customers in a more personal way. By using technology such as mobile apps, chat tools and website pages, retailers can create a more convenient and personalized shopping experience for each consumer that visits, not just consumers that make a purchase.

Sonata's expertise in the leading Retail, Distribution, Travel and transportation customers along with its range of IP-led platform solutions such as Brick & Click Retail, Retina, Halosys and Sonata Digital Commerce Platform makes the Company a preferred partner of its clients.

OUTLOOK

According to Gartner, the worldwide IT spending is projected to reach \$3.74 trillion in 2018, an increase of 6.2% from 2017. The growth will be largely driven by the declining U.S Dollar causing currency tailwinds. Since 2007, this is the highest annual growth rate that Gartner has projected, indicating an IT growth cycle. While in India, the IT spending is projected to reach \$87.1 billion in 2018, an increase of 9.2% from \$79.7 billion spending in 2017. This growth will be largely driven by adaptation of digital platforms like Cloud computing, data analytics, Blockchain, Artificial Intelligence (AI) and robotics.

While new U.S tax policy is expected to help in reducing tax burden to Indian IT vendors, strict work visa in significant markets like the US and UK still remains a major concern for the IT industry. Revenue growth is expected to remain stable for tier-I IT companies and

higher for mid-caps largely owing to dollar depreciating against all major currencies. Indian IT vendors are expected to continue with their investments into new digital avenues to stay globally competitive.

As highlighted in the economic and industry review, external factors such as world economy, geo political and policy environment is likely to be a mixed bag with no net impact on performance potential. The Indian IT players have made a transition to remain relevant, skilled and strategic partners to their customers. The overall IT industry and Indian IT services business is expected to show a moderate growth trend.

Within this broad context, Sonata is perfectly positioned to enjoy industry-beating performance by a range of sound strategic business decisions. Its focus on Platformation™ - platform based DT solutions, places it on one of the fastest growing segments in the market. The focus on delivering through differentiated IP of its own coupled with high quality ISV platform alliances with Microsoft and SAP will add to the value and margins. Sonata's industries of focus such as Retail and Distribution are seeing further digital disruptions. This will drive robust investments in the new technology services by our end customers. A wider customer base that is acquired over the years, offers us a strategic expansion potential within the existing accounts. Our differentiated Platformation™ solutions, strong alignment with alliance partners and investments in Sales and Marketing will drive new business development. These factors should see Sonata sustain its strong growth and profitability trends.

To further sustain and nurture this growth potential, the Company will be taking critical new initiatives going forward. Continued investments in talent development, enhanced infrastructure and an accent on new approaches based on design thinking capability built across organizational levels will be invested during the next fiscal. Strategic mergers and acquisitions that add leverage to the Company's growth potential will also remain on the radar. The Company is well placed to sustain its performance trend going ahead.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF SONATA SOFTWARE LIMITED

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of **Sonata Software Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2018, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order issued under section 143(11) of the Act.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Other Matters

The comparative financial information of the Company for the year ended March 31, 2017 and the transition date opening balance sheet as at April 1, 2016 included in these standalone Ind AS financial statements, have been restated to comply with Ind AS. Adjustments made to the previously issued said financial information prepared in accordance with the Companies (Accounting Standards) Rules, 2006 to comply with Ind AS have been audited by us.

Our opinion on the standalone Ind AS financial statements is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

- As required by Section 143(3) of the Act, based on our audit and on the consideration of the reports of the branch auditors and other auditors on the separate financial statements, to the extent applicable that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act.
 - e) On the basis of the written representations received from the directors of the Company as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Sonata Software Limited** (“the Company”) as of March 31, 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES forming part of financial statements

Significant Accounting Policies

1. CORPORATE INFORMATION

Sonata Software Limited ("SSL" or the "Company") is a Company primarily engaged in the business of providing Information Technology Services and Solutions to its customers in the United States of America, Europe, Middle East and India.

The Company is a public limited company incorporated in India with its registered office at Mumbai and operationally headquartered at Bengaluru. The Company is listed on The National Stock Exchange Limited and The BSE Limited. The financial statements were authorised for issuance by the Company's Board of Directors on May 22, 2018.

The principal accounting policies applied in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION & PRESENTATION OF FINANCIAL STATEMENTS

a. Statement of compliance

The financial statements have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 and Companies (India Accounting Standards) Amendment Rules, 2016 as applicable.

Upto the year ended March 31, 2017, the Company prepared and presented its financial statements in accordance with the accounting standards notified under section 133 of the Companies Act, 2013 (Indian GAAP), which includes Standards notified under the Companies (Accounting Standards) Rules, 2006.

These are the Company's first Ind AS financial statements. The Company has adopted all applicable standards and the adoption was carried out in accordance with Ind AS 101 – 'First Time Adoption of Indian Accounting Standards'. An explanation of how the transition to Ind AS has affected the reported financial position, financial performance and cash flows of the Company are provided in Note no 38 - First Time Adoption. The date of transition to Ind AS is April 1, 2016.

b. Basis of measurement

The financial statements have been prepared on a historical cost convention and on an accrual basis, except for certain financial instruments which are measured at fair value at end of the each reporting period, as explained in the accounting policies below.

c. Use of judgement, estimates and assumptions

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities and disclosure relating to contingent liabilities as at the date of financial statement and the reported amounts of income and expenditure during the reported year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialize.

The areas involving critical estimates or judgements are:

- i. **Depreciation and amortisation:** Depreciation and amortisation is based on management estimates of the future useful lives of certain class of property, plant and equipment and intangible assets. Estimates may change due to technological developments, competition, changes in market conditions and other factors and may result in changes in the estimated useful life and in the depreciation and amortisation charges.
- ii. **Impairment testing:** Investments in subsidiaries, goodwill and intangible assets are tested for impairment annually and when events occur or changes in circumstances indicate that the recoverable amount of the asset or cash generating units to which these pertain is less than its carrying value. The recoverable amount of cash generating units is higher of value-in-use and fair value less cost to dispose. The calculation of value in use of a cash generating unit involves use of significant estimates and assumptions which includes turnover and earnings multiples, growth rates and net margins used to calculate projected future cash flows, risk-adjusted discount rate, future economic and market conditions.
- iii. **Employee Benefits :** The present value of the employee benefits obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) includes the discount rate, wage escalation and employee attrition. Any changes in these assumptions will impact the carrying amount of obligations. The discount rate is based on the prevailing market yields of Indian Government securities as at the Balance Sheet date for the estimated term of the obligations.
- iv. **Provision and contingencies :** Provisions and contingencies are based on the Management's best estimate of the liabilities based on the facts known at the Balance Sheet date.
- v. **Expected credit losses on financial assets:** The impairment provisions of financial assets are based on assumptions about risk of default and expected timing of collection. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, customer's creditworthiness, existing market conditions as well as forward looking estimates at the end of each reporting period.

NOTES forming part of financial statements

- vi. **Other estimates:** The preparation of financial statements involves estimates and assumptions that affect the reported amount of assets, liabilities, disclosure of contingent liabilities at the date of financial statements and the reported amount of revenues and expenses for the reporting period.

The stock compensation expense is determined based on the Company's estimate of equity instruments that will eventually vest.

Fair valuation of derivative hedging instruments designated as cash flow hedges involves significant estimates relating to the occurrence of forecast transaction.

- 2.2 **Functional and presentation currency:** The functional and presentation currency of the Company is Indian Rupee (₹). The functional currency of its Branches is as per its respective domicile currency.

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Property, Plant and Equipment

On Transition : For transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as of April 1, 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Subsequent to Transition:

Recognition & Measurement: Property, Plant and Equipment are carried at cost less accumulated depreciation / amortization and impairment losses, if any. The cost of property, plant and equipment comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, other incidental expenses. Subsequent expenditure, if any, on property, plant and equipment after its purchase / completion is capitalized only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

- b. **Capital work-in-progress** Amounts paid towards the acquisition of property, plant and equipment outstanding as of each reporting date and the cost of property, plant and equipment not ready for intended use before such date are disclosed under capital work-in-progress.

c. Depreciation/ Amortisation

Depreciable amount for assets is the cost of asset less its estimated residual value.

Depreciation has been provided on buildings and plant and equipments on the straight line method and on furniture and fixtures, vehicles and office equipments on the written down method, as per the useful life prescribed in Schedule II of the Companies Act, 2013.

Leasehold land and leasehold improvements are amortized over primary lease period.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate. The Company assesses at each Balance Sheet date whether there is objective evidence that an asset or a group of assets is impaired. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

d. Intangible assets

On Transition - The Company has elected to continue with the carrying value of all of its intangible assets recognised as of April 1, 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Subsequent to Transition:

Recognition & Measurement: Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and impairment losses, if any.

Amortization is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each reporting period.

Computer software is amortized over a period of three years

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in Statement of Profit and Loss when the asset is derecognized.

e. Financial Instruments

Financial assets : The Company classifies its financial assets in the following categories:

- i. **Financial assets at amortised cost** - Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost.

NOTES forming part of financial statements

They are presented as current assets, except for those maturing later than 12 months after the reporting date which are presented as non-current assets. Financial assets are measured initially at fair value which usually represents cost plus transaction costs and subsequently carried at amortised cost using the effective interest method, less impairment loss if any.

Financial assets at amortised cost are represented by trade receivables, security and other deposits, cash and cash equivalent, employee and other advances.

- ii. **Equity investments** - Investment in subsidiaries are stated at cost less impairment loss if any.
- iii. **Financial Assets at Fair Value through Other Comprehensive Income (FVTOCI)** - For assets which are not held for trading purposes and where the company has exercised the option to classify the investment as at FVTOCI, all fair value changes on the investment are recognised in OCI. The accumulated gains or losses on such investments are not recycled to the Statement of Profit and Loss even on sale of such investment.
- iv. **Financial assets at Fair Value through Profit and loss (FVTPL)** - Financial assets other than the equity investments and assets classified as FVTOCI are measured at FVTPL. These include surplus funds invested in mutual funds etc.

Financial liabilities

Initial recognition and measurement - Financial liabilities are measured at amortised cost using effective interest method. For trade and other payable maturing within one year from the Balance Sheet date, the carrying value approximates fair value due to short maturity.

Derivative financial instruments and hedging activities

A derivative is a financial instrument which changes value in response to changes in an underlying asset and is settled at a future date. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. The method of recognizing the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

The Company enters into derivative contracts to hedge the risks asserted with currency fluctuations relating to firm commitments and highly probable transactions. The Company does not use derivative instruments for speculative purposes.

The Company documents, at the inception of the transaction, the relationship between hedging instruments and hedged items, as well as its risk management objectives and strategy for undertaking various hedging transactions. The Company also documents its assessment, both at hedge inception and on an on-going basis, of whether the derivatives that are used in hedging transactions are effective in offsetting changes in cash flows of hedged items.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in Other Comprehensive Income. The ineffective portion of changes in the fair value of the derivative is recognised in the Statement of Profit and Loss.

Amounts accumulated in hedging reserve are reclassified to the Statement of Profit and Loss in the periods when the hedged item affects the Statement of Profit and Loss.

The full fair value of a hedging derivative is classified as a current/ non-current, asset or liability based on the remaining maturity of the hedged item.

When a hedging instrument expires, swapped or unwound, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in Statement of Changes in Equity is recognised in the Statement of Profit and Loss.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Balance Sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

Fair value measurement

The Company classifies the fair value of its financial instruments in the following hierarchy, based on the inputs used in their valuation:

- i) Level 1 - The fair value of financial instruments quoted in active markets is based on their quoted closing price at the Balance Sheet date.
- ii) Level 2 - The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques using observable market data. Such valuation techniques include discounted cash flows, standard valuation models based on market parameters for interest rates, yield curves or foreign exchange rates, dealer quotes for similar instruments and use of comparable arm's length transactions.
- iii) Level 3 - The fair value of financial instruments that are measured on the basis of entity specific valuations using inputs that are not based on observable market data (unobservable inputs). When the fair value of unquoted instruments cannot be measured with sufficient reliability, the Company carries such instruments at cost less impairment, if applicable.

f. Employee Benefits

Employee benefits include provident fund, employee state insurance scheme, gratuity fund, superannuation fund and compensated absences.

NOTES forming part of financial statements

Provident Fund: Employees receive benefits from a provident fund, which is a defined benefit plan. The employer and employees each make periodic contributions to the plan. A portion of the contribution is made to the approved provident fund trust managed by the Trustees of Sonata Software Limited Provident Fund while the remainder of the contribution is made to the government administered pension fund. The contributions to the trust managed by the Company is accounted for as a defined contribution plan as the Company is liable for any shortfall in the fund assets based on the government specified minimum rates of return.

Gratuity: The Company provides for Gratuity, a defined benefit plan covering the eligible employees. The Gratuity plan provides a lump-sum payment to vested employees at retirement, death or termination of employment, of an amount based on the respective employee's salary and tenure of the employment with the Company.

Liabilities with regard to the Gratuity plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using projected unit method. The Company fully contributes all ascertained liabilities to the trust managed by the Trustees of Sonata Software Limited Gratuity Fund. The Trustees administers the contributions made to the Trust. The fund's investments are managed by certain insurance companies as per the mandate provided to them by the trustees and the asset allocation is within the permissible limits prescribed in the insurance regulations.

Actuarial gains and losses are recognised in the Other comprehensive income in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the schemes.

Superannuation Fund: Certain employees of the Company are participants in a defined contribution plan of superannuation. The Company has no further obligations to the plan beyond its monthly contributions which are periodically contributed to the Sonata Software Limited Superannuation Fund Trust, the corpus of which is invested with the Life Insurance Company.

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under :

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

Long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date less the fair value of the plan assets out of which the obligations are expected to be settled. Long Service Awards are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date.

g. Provisions

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on a best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

h. Income Taxes

Income tax comprises current and deferred tax. Income tax expense is recognized in the Statement of Profit and Loss except to the extent it relates to items directly recognized in Equity or in Other Comprehensive Income.

- a) **Current income tax** - Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted by the reporting date and applicable for the period. The Company off sets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis or to realize the asset and liability simultaneously.
- b) **Deferred tax** - Deferred income tax is recognized using the Balance Sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction.

NOTES forming part of financial statements

Deferred income tax asset is recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred income tax liabilities are recognized for all taxable temporary differences.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

i. Leases

Leases under which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments under operating leases are recognised as an expense on a straight line basis in the Statement of Profit and Loss over the lease term except where the lease payments are structured to increase in line with expected general inflation.

j. Cash flow Statement:

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipt or payments and item of income or expense associated with investing or financing cash-flows. The cash flow from operating, investing and financing activities of the Company are segregated.

k. Revenue Recognition

The Company derives revenue primarily from Information Technology Services and Solutions. The Company recognizes revenue when the significant terms of the arrangement are enforceable, services have been delivered and the collectability is reasonably assured. The method for recognizing revenues and costs depends on the nature of the services rendered:

a) Time and materials contracts

Revenues from contracts priced on a time and material basis are recognised when services are rendered and related costs are incurred.

b) Fixed-price contracts

Revenues from fixed price contracts are recognised over the life of the contract using percentage of completion method, with contract costs determining the stage of completion at the end of the reporting period. Foreseeable losses on such contracts are recognised when probable.

c) Hardware/software products and licenses

Revenues from sale of product and licenses are recognised on transfer of significant risks and rewards of ownership to the buyers, which generally coincides with delivery where there is no customization required. In case of customization the same is recognised over the life of the contract using the proportionate completion method, with contract costs determining the degree of completion. Foreseeable losses on such contracts are recognised when probable.

d) Maintenance Contracts

Revenue from maintenance contracts is recognized ratably over the period of the contract using the "percentage-of-completion" method. When services are performed through an indefinite number of repetitive acts over a specified period of time, revenue is recognized on a straight line basis over the specified period or under some other method that better represents the stage of completion.

Revenues are reported net of GST and applicable discounts and allowances.

l. Borrowing Costs:

Borrowing costs consist of interest, ancillary and other costs that the Company incurs in connection with the borrowing of funds and interest relating to other financial liabilities. Borrowing costs also include exchange differences to the extent regarded as an adjustment to the borrowing costs.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur.

NOTES forming part of financial statements

m. Foreign Currency transactions and translations

Transactions in foreign currency are translated into the respective functional currencies using the exchange rates prevailing at the dates of the respective transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the exchange rates prevailing at reporting date of monetary assets and liabilities denominated in foreign currencies are recognized in the Statement of Profit and Loss and reported within foreign exchange gains/ (losses).

Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Foreign currency gains and losses are reported on a net basis. This includes changes in the fair value of foreign exchange derivative instruments, which are accounted at fair value through profit or loss.

n. Finance Income and expense

Finance income consists of interest income on funds invested, dividend income and gains on the disposal of FVTPL financial assets. Interest income is recognized as it accrues in the statement of profit and loss, using the effective interest method.

Dividend income is recognized in the statement of profit and loss on the date that the Company's right to receive payment is established.

Finance expenses consist of interest expense on loans and borrowings. Borrowing costs are recognized in the Statement of Profit and Loss using the effective interest method.

o. Share based payments

Employees of the Company receive remuneration in the form of cash settled share based transaction, for rendering services over a defined vesting period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. The equity instruments are granted by the Employee Welfare Trust.

The expense is recognized in the Statement of Profit and Loss with a corresponding increase to the share based payment reserve, a component of equity.

The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortization).

The fair value of the amount payable to the employees in respect of Stock Appreciation Rights (SAR), which are settled in cash, is recognized as an expense with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the SAR plan. Any changes in the liability are recognized in Statement of Profit and Loss.

p. Impairment

a) Financial assets : In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss.

The Company assesses at each Balance Sheet date whether a financial asset or a group of financial assets is impaired. The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Company recognizes lifetime expected credit losses for all trade receivables and/or other contract assets that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

ECL allowance (or reversal) is recognised as income / expense in the Statment of Profit and Loss.

b) Non-financial assets: The Company assesses at each reporting date whether there is any objective evidence that a non financial asset or a group of non financial assets is impaired. If any such indication exists, the Company estimates the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognised in profit or loss and reflected in an allowance account. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through profit or loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

q. Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. For the purpose of computing diluted

NOTES forming part of financial statements

earnings per share, profit / (loss) after tax (including the post tax effect of extraordinary items, if any) and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

r. **Contingent Liabilities**

Contingent liabilities exist when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or nonoccurrence of one or more uncertain future events not wholly within the control of the Company, or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required or the amount cannot be reliably estimated. Contingent liabilities are appropriately disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

s. **Contingent Assets**

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The Company does not recognize a contingent asset.

t. **Research & development expenses**

Research expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are also charged to the Statement of Profit and Loss unless a product's technical feasibility has been established, in which case such expenditure is capitalized. The amount capitalized comprises expenditure that can be directly attributed or allocated on a reasonable and consistent basis to creating, producing and making the asset ready for its intended use.

u. **Events after the reporting period**

Adjusting events are events that provide further evidence of conditions that existed at the end of the reporting period. The financial statements are adjusted for such events before authorisation for issue.

Non-adjusting events are events that are indicative of conditions that arose after the end of the reporting period. Non-adjusting events after the reporting date are not accounted, but disclosed.

v. **First-time adoption – mandatory exceptions, optional exemptions**

The Standalone financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended, read with relevant rules issued thereunder in terms of the SEBI LODR, as modified by Circular No CIR/CFD/FAC/62/2016 dated July 5, 2016.

For periods up to and including the year ended March 31, 2017, the Company prepared its financial statements in accordance with the then applicable Accounting Standards in India ('previous GAAP'). The adoption of Ind AS was carried out in accordance with Ind AS 101, considering April 1, 2016 as the transition date. Pursuant to adoption of Ind AS, the differences in the carrying amounts of assets and liabilities on the transition date under the previous GAAP and the balances on adoption of Ind AS have been recognised directly in equity. The financial statements for the year ended March 31, 2018, March 31, 2017 and as at April 1, 2016 have been presented under Ind AS for comparative purposes. Accounting policies have been applied consistently to all periods presented in these Standalone Financial Results.

In preparing the opening Ind AS statement of financial position, adjustments are carried out to the amounts reported in financial statements prepared in accordance with previous GAAP. An explanation of how the transition from previous GAAP to Ind AS has affected our financial performance, cash flows and financial position is set out in Note No 38.

w. **New standards and interpretations not yet adopted**

Appendix B to Ind AS 21, Foreign currency transactions and advance consideration: On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. The amendment will come into force from April 1, 2018. The Company is evaluating the effect of this on the financial statements.

Ind AS 115- Revenue from Contract with Customers: On March 28, 2018, the Ministry of Corporate Affairs notified Ind AS 115 Revenue from Contracts with Customers. The standard replaces Ind AS 11 Construction Contracts and Ind AS 18 Revenue.

The new standard applies to contracts with customers. The core principle of the new standard is that an entity should recognize revenue to depict transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further, the new standard requires enhanced disclosures about the nature, timing and uncertainty of revenues and cash flows arising from the entity's contracts with customers. The new standard offers a range of transition options. An entity can choose to apply the new standard to its historical transactions and retrospectively adjust each comparative period. Alternatively, an entity can recognize the cumulative effect of applying the new standard at the date of initial application - and make no adjustments to its comparative information. The chosen transition option can have a significant effect on revenue trends in the financial statements. A change in the timing of revenue recognition may require a corresponding change in the timing of recognition of related costs. The standard is effective for annual periods beginning on or after April 1, 2018. The Company is currently evaluating the requirements of Ind AS 115, and has not yet determined the impact on the financial statements.

21 Contingent Liabilities

(₹ in lakhs)

	As at March 31, 2018	As at March 31, 2017
a) Guarantees		
The Company has given corporate guarantees to certain suppliers of Sonata Information Technology Limited (SITL) and Sonata Software North America Inc (SSNA), its wholly owned subsidiaries. The amount drawn down as at year end against this facility is ₹ 3,297 (as at March 31, 2017 is ₹ 5,112)	16,141	16,065
b) Disputed demand of Service tax		
(i) The Company renders Information Technology related services to some of its clients in India. The Service Tax department had classified these services as 'Manpower Recruitment or Supply Agency Services'. The Company had contested this re-classification and had preferred an appeal before the Central Excise and Service Tax Appellate Tribunal (CESTAT). One of the clients of the Company had indemnified the Company for any demands that may arise on account of service tax liability up to an amount of ₹ 237. The amount included as disputed demand is excluding the amount indemnified by the client.	677	677
(ii) The demand for payment of service tax for the period from FY 2006-07 to FY 2012-13 on services received and consumed by UK branch of the company and a subsidiary company at USA, treating it as import of service, wrong availment of cervat credit and usage of software services provided to subsidiary. The company had filed appeal before the Commissioner of Appeals and is confident of getting favorable outcome based on legal precedents which support its stand.	1,028	-
c) Other claims against the Company not acknowledged as debt	937	937
d) Disputed demands of Income-tax	14,011	11,690

Details of disputed demands of Income-tax by issue and by year are as below:

(₹ in lakhs)

(i) Disallowance of claims made under Section 10A of the Income-tax Act, 1961

The Company does its business of software exports through multiple operating units or undertakings registered under the Software Technology Park Scheme of India. In computing taxable profit from the export of software, the Company claims exemptions provided to registered software technology parks, undertakings and units as provided under Section 10A of the Income-tax Act, 1961 ("Act").

The Income-tax department in its assessments has been denying or limiting the benefits of Section 10A of the Act to the multiple undertakings of the Company on the ground that they were in fact one single unit and thus the benefits claimed were in excess of permissible limits, and had raised a demand of ₹ 5,001, (As at March 31, 2017 - ₹ 5,001) for financial years 2007-08 to 2009-10. The company received favourable order from CIT(A) and the Department has preferred an appeal before Income-tax Appellate Tribunal (ITAT).

For the financial year 2006-07 ₹ 2,368 (As at March 31, 2017- ₹ Nil), the Company has received favorable order from Income-tax Appellate Tribunal (ITAT) and the Department has preferred an appeal before the Honorable High Court of Mumbai.

For the financial year 2001-02, ITAT had given a favorable order on the ground of income accrued under Section 10A of the Act against which the department had filed an appeal before the Honorable High Court of Mumbai ₹ 149 (As at March 31, 2017 - ₹ 149).

For the financial year 2013-14 ₹ 43 (As at March 31, 2017 - Nil), the Company has preferred an appeal before CIT(A).

(ii) Disallowance of Inter-Company Service Charges

The Company charges Sonata Information Technology Limited, its wholly owned subsidiary, for certain support services rendered. During assessments, the Income-tax department denied benefits under Section 10A of the Income Tax Act on such support services and assessed the same as normal business income and raised demand of ₹ 2,337 (As at March 31, 2017 - ₹ 2,337) for financial years 2001-02 to 2004-05. The Company had received favorable orders from ITAT. However, the department preferred an appeal on the said orders before the Honorable High Court of Mumbai.

₹ 116 (As at March 31, 2017- ₹ 116) for the financial year 2010-11. The Company had filed an appeal before the CIT(A) The Company has received favorable orders and the Department has preferred an appeal before ITAT.

(iii) Transfer Pricing Adjustment

₹ 1,072 (As at March 31, 2017 - ₹ 1,162) for the financial year 2011-12 and 2013-14. The Income-tax department has recommended the upward adjustment in the value of Investment in subsidiary and sale of services to associated enterprises as Transfer Pricing Adjustment in the International transactions in order to consider them to be at arm's length price. The Company had preferred an appeal before CIT(A) heard and partly allowed. For the financial year 2011-12, the Company has preferred an appeal before ITAT. For the financial year 2013-14, the company has preferred an appeal before CIT(A).

NOTES forming part of financial statements

(iv) Withholding tax demand

The Income-tax department has been contending that amounts paid by the Company for buying the software products is in the nature of 'Royalty' and hence had to withhold Income-tax on the same as per the Income Tax Act and had raised demand of ₹ 2,842 (As at March 31, 2017 - ₹ 2,842) from the financial year 1999-00 to 2001-02. The Company's contention has been that the payments were made for purchase of 'Goods' and hence was under no obligation to withhold Income-tax on the same. The Company had received favorable orders from the ITAT which were reversed by the Honorable High Court of Karnataka. The Company had preferred a Special Leave Petition Appeal on the said order to the Honorable Supreme Court of India, which had been admitted. However, for these years one of the principal suppliers of software to the Company had paid taxes of ₹ 879 out of the above demand. The amount included as disputed demand is excluding the amount paid by the supplier.

(v) Deductions claimed under Section 80 O

Prior to the enactment of Section 10A of the Act, the Company claimed deduction for exports made, under Section 80 O of the Act. The department had re-opened the assessments and disallowed certain aspects of the claims made on the contention that cost allocation principles followed for the claim are erroneous and raised a demand of ₹ 83 (As at March 31, 2017 - ₹ 83) for the financial year 1994-95. The Company had received favorable orders from ITAT. The department had preferred an appeal on the said order before the Honorable High Court of Mumbai.

- e) In addition, the Company in the ordinary course of business receives various claims from its customers and other business partners. Based on review of such matters and the information available at this time, the Company does not anticipate that any of these will result in a settlement that will have a material impact on its financial statements.

The management assessed that fair value of cash and short-term deposits, trade receivables, trade payables, inter corporate deposits and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

1. The fair value of the quoted mutual funds are based on price quotations at reporting date. The fair value of loans from banks and other financial liabilities, as well as other non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. In addition to being sensitive to a reasonably possible change in the forecast cash flows or discount rate, the fair value of the equity instruments is also sensitive to a reasonably possible change in the growth rates. The valuation requires management to use unobservable inputs in the model, of which the significant unobservable inputs are disclosed in the tables below. Management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.
2. The fair values of the unquoted equity and preference shares have been estimated using a discounted cash flow model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, discount rate, credit risk and volatility, the probabilities of the various estimates whose range can be reasonably assessed and are used in management's estimate of fair value for these unquoted equity investments.
3. The Company enters into derivative financial instruments with Banks. Foreign exchange forward contracts are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include forward pricing model, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spreads between the respective currencies, interest rate curves etc. As at March 31, 2018, the marked-to-market value of derivative asset positions is net of a credit valuation adjustment attributable to derivative counterparty default risk. The changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationship and other financial instruments recognised at fair value.

25. Fair value hierarchy

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following table presents the fair value measurement hierarchy of financial assets and liabilities measured at fair value on recurring basis as at March 31, 2018, March 31, 2017 and April 1, 2016.

Derivative financial instruments

The Company is exposed to foreign currency fluctuations on foreign currency assets/ liabilities and forecasted cash flows denominated in foreign currency. The Company uses derivatives to hedge foreign currency assets/ liabilities and foreign currency forecasted cash flows. The counter party in these derivative instruments is a bank and the Company considers the risks of non-performance by the counterparty as non-material.

26. Financial risk management

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk, foreign currency risk and interest rate risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange related risk exposures. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Company's policy that no trading in derivative for speculative purposes may be undertaken.

The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below:

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investment securities. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment.

The following table gives details in respect of revenues generated from top customer and top 5 customers (excluding Inter-company):

(₹ in lakhs)

Particulars	For the year ended March 31, 2018	For the year ended March 31, 2017
Revenue from top customer	16,677	13,855
Revenue from top 5 customers	25,813	20,117

One customer accounted for more than 10% of the revenue for the year ended March 31, 2018, however none of the customers accounted for more than 10% of the receivables for the year ended March 31, 2018. One customer accounted for more than 10% of the revenue for the year ended March 31, 2017, however none of the customers accounted for more than 10% of the receivables for the year ended March 31, 2017.

26. Financial risk management (Contd.)

Investments

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Company does not expect any losses from non-performance by these counterparties, and does not have any significant concentration of exposures to specific industry sectors.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due. Also, the Company has unutilized credit limits with banks.

The Company's corporate treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management.

The working capital position of the Company is given below:

(₹ in Lakhs)

Foreign Currency risk

The Company's exchange risk arises from its foreign operations, foreign currency revenues and expenses, (primarily in U.S. dollars, British pound sterling and euros). A significant portion of the Company's revenues are in these foreign currencies, while a significant portion of its costs are in Indian rupees. As a result, if the value of the Indian rupee appreciates relative to these foreign currencies, the Company's revenues measured in rupees may decrease. The exchange rate between the Indian rupee and these foreign currencies has changed substantially in recent periods and may continue to fluctuate substantially in the future. The Company reviews on a periodic basis to formulate the strategy for foreign currency risk management.

Consequently, the Company uses derivative financial instruments, such as foreign exchange forward contracts, to mitigate the risk of changes in foreign currency exchange rates in respect of its forecasted cash flows and trade receivables.

The details in respect of the outstanding foreign exchange forward contracts are given under the derivative financial instruments section.

In respect of the Company's forward contracts, a 1% decrease / increase in the respective exchange rates of each of the currencies underlying such contracts would have resulted in:

- an approximately ₹ 77 lakhs increase and decrease in the Company's net profit as at March 31, 2018;
- an approximately ₹ 67 lakhs increase and decrease in the Company's net profit as at March 31, 2017.

For the year ended March 31, 2018, every 1% increase / (decrease) of the respective foreign currencies compared to functional currency of the Company would impact operating margins by 0.19% / (0.19)%. For the year ended March 31, 2017, the impact on operating margins would be 0.16% / (0.16)%.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates and investments. The Company's borrowings and investments are primarily short-term, which do not expose it to significant interest rate risk.

27. Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Company monitors the return on capital as well as the level of dividends on its equity shares. The Company's objective when managing capital is to maintain an optimal structure so as to maximize shareholder value.

The capital structure of the Company consists of net debt (borrowings offset by cash and bank balances) and total equity.

The capital structure is as follows:

(₹ in Lakhs)

Particulars	As at March 31, 2018	As at March 31, 2017	As at April 1, 2016
Total equity attributable to the equity share holders of the Company	49,143	46,816	37,309
As percentage of total capital	100%	100%	79%
Current borrowings	-	-	9,651
As a percentage of total capital	-	-	21%
Total capital (borrowings and equity)	49,143	46,816	46,960

The Company is predominantly equity financed which is evident from the capital structure table. Further, the Company has generally been a net cash Company with cash and bank balances along with investment which is predominantly investment in liquid and short term mutual funds being far in excess of debt.

28 Employee benefit plans

i) Defined contribution plans

a) Provident fund

The Company makes contributions towards Provident Fund under a defined contribution plan for qualifying employees. The Provident Fund is administered by the Trustees of Sonata Software Limited Provident Fund and by the Regional Provident Fund Commissioner. Under this scheme, the Company is required to contribute a specified percentage of payroll cost to fund the benefits.

The Rules of the Company's Provident Fund administered by the Trust require that if the Board of Trustees are unable to pay interest at the rate declared for Employees' Provident Fund by the Government under para 60 of the Employees' Provident Fund Scheme, 1952 for the reason that the return on investment is less or for any other reason, then the deficiency shall be made good by the Company. Having regard to the assets of the Fund and the return on the investments, the Company does not expect any deficiency in the foreseeable future. There has also been no such deficiency since the inception of the Fund.

Provident fund contributions amounting to ₹ 1,132 lakhs (for the year ended March 31, 2017 ₹ 976 lakhs) has been charged to the Statement of Profit and Loss (as part of Contribution to Provident Fund and other Funds in Note 18 Employee benefits expense).

38. Transition to Ind AS

The Company's financial statements for the year ended March 31, 2018 are prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015. The adoption of Ind AS was carried out in accordance with Ind AS 101, using April 1, 2016 as the transition date. Ind AS 101 requires that all Ind AS standards and interpretations that are effective for the Ind AS financial statements for the year ended March 31, 2018, be applied consistently and retrospectively for all fiscal years presented. All applicable Ind AS have been applied consistently and retrospectively wherever required. The resulting difference between the carrying amounts of the assets and liabilities in the financial statements under both Ind AS and Indian GAAP as at the transition date have been recognized directly in equity at the transition date.

In preparing these financial statements, the Company has availed itself of certain exemptions and exceptions in accordance with Ind AS 101 as explained below:

- (i) Exceptions from full retrospective application

Estimates exception: Upon an assessment of the estimates made under Indian GAAP, the Company has concluded that there was no necessity to revise such estimates under Ind AS, except where estimates were required by Ind AS and not required by Indian GAAP.

- ii) Exemptions from retrospective application:

Share-based payment exemption: The Company has availed exemption available under Ind AS 101 on application of Ind AS 102, "Share Based Payment", to equity instruments that vested before the date of transition to Ind AS.

NOTES forming part of financial statements

38. Transition to Ind AS (Contd.)

Notes

i. Business combination:

Under Ind AS, the acquiree's identifiable assets, liabilities and contingent consideration payable on business combination that meet the condition for recognition are considered at their fair value. This has resulted in the recognition of intangible assets and consequently their amortisation in the Statement of Profit and Loss. while under previous GAAP, the assets & liabilities of the acquiree are recognised at cost.

ii. Fair valuation of investments:

Under Ind AS, financial assets and financial liabilities are required to be measured at fair value. The resulting fair value change of these investments has been recognised in the retained earnings as at the date of transition and subsequently in the profit or loss for the year ended March 31, 2017. Mutual fund investments have been classified as FVTPL. Consequently, increase in fair value of such investments in quoted mutual funds has resulted in a gain. Under previous GAAP, investments in equity instruments and Mutual funds were classified as long-term investments or current investments based on the intended holding period and its realisability. Long term investments were carried at cost less provision for other than temporary decline in the value of such investments. Current investments were carried at lower of cost and fair value.

iii. Security deposits:

Under previous GAAP, Lease security deposits (that are refundable in cash on completion of the lease term) are recorded at their transaction value. Under Ind AS, the difference between the Fair value and transaction value of the security deposits has been recognised as prepaid rent. The lease rentals paid in advance are charged to the statement of profit and loss over the lease term.

iv. Deferred Tax:

Under Ind AS, deferred taxes has been recognised on the adjustments made on transition to Ind AS and the items considered under other comprehensive income.

v. Consolidation of Employee Welfare Trust:

Under Ind AS, the company is required to consolidate Sonata Employee Welfare Trust Accounts, which is under common control. Under previous GAAP, the same was not consolidated.

vi. Hedge Accounting/Forward contracts:

Under Ind AS the effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in Other Comprehensive Income. The ineffective portion of changes in the fair value of the derivative is recognised in the Statement of Profit and Loss. Under previous GAAP, the gain or loss on the hedging instrument that is determined to be an effective hedge was recognized directly in the appropriate equity account.

vii. Employee stock option plan:

Under the previous GAAP, the cost of equity-settled employee share-based plan were recognised using the intrinsic value method. Under Ind AS, the cost of equity-settled share based plan is recognised based on the fair value of the options as at the grant date.

viii. Remeasurement of Defined benefit obligations:

Under previous GAAP, actuarial gains and losses were recognised in the statement of Profit and Loss. Under Ind AS, the actuarial gains and losses form part of remeasurement of the net defined benefit liability/ asset which is recognised in Other Comprehensive Income. Consequently, the tax effect of the same has also been recognised in Other Comprehensive Income under Ind AS instead of the Statement of Profit and Loss.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF SONATA SOFTWARE LIMITED

Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of **Sonata Software Limited** (hereinafter referred to as "the Parent") and its subsidiaries (the Parent and its subsidiaries together referred to as "the Group"), comprising the Consolidated Balance Sheet as at March 31, 2018, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Cash Flow Statement, the Consolidated Statement of Changes in Equity for the year then ended and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated Ind AS financial statements").

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Parent's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Parent, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Parent's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Parent's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of the other auditors on separate financial statements of the subsidiaries referred to below in the Other Matters paragraph, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2018, and their consolidated profit, consolidated total comprehensive income, their consolidated cash flows and consolidated statement of changes in equity for the year ended on that date.

Other Matters

- (a) We did not audit the financial statements of three subsidiaries, whose financial statements reflect total assets of ₹ 8,299 lakhs as at March 31, 2018, total revenues of ₹ 6,877 lakhs and net cash inflows amounting to ₹ 371 lakhs for the year ended on that date, as considered in the consolidated Ind AS financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated Ind AS financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of the other auditors.
- (b) The comparative financial information of the Group for the year ended March 31, 2017 and the transition date opening balance sheet as at April 1, 2016 included in this consolidated Ind AS financial information have been prepared after adjusting the previously issued

consolidated financial statement prepared in accordance with the Companies (Accounting Standards) Rules, 2006 to comply with Ind AS. Adjustments made to the previously issued consolidated financial information to comply with Ind AS have been audited by us.

Our opinion on the consolidated Ind AS financial statements above, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of other auditors.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, based on our audit and on the consideration of the report of other auditors on separate financial statements and the other financial information of the subsidiary companies referred in the 'Other Matters' paragraph above we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated Ind AS financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated Ind AS financial statements have been so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated Ind AS financial statements and the reports of the other auditors.
- (d) In our opinion, the aforesaid consolidated Ind AS financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors of the Parent as on March 31, 2018 taken on record by the Board of Directors of the Parent and the report of the statutory auditor of its subsidiary company in India, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting and the operating effectiveness of such controls, refer to our separate Report in "Annexure A", which is based on the auditors' reports of the Parent and subsidiary company, incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls over financial reporting of those companies, for the reasons stated therein.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated financial position of the Group.
 - ii. The Group did not have any material foreseeable losses on long-term contracts including derivative contracts.
 - iii. There has been no delay in transferring amounts required to be transferred, to the Investor Education and Protection Fund by the Parent and its subsidiary company, incorporated in India.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended March 31, 2018, we have audited the internal financial controls over financial reporting of **Sonata Software Limited** (hereinafter referred to as “Parent”) and its subsidiary company, which includes internal financial controls over financial reporting of the Company’s subsidiary which is a company incorporated in India as of that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Parent and its subsidiary company, which is a company incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Parent, its subsidiary company, which is a company incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Parent, its subsidiary company, which is a company incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion to the best of our information and according to the explanations given to us, the Parent, its subsidiary company, which is a company incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the criteria for internal financial control over financial reporting established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES forming part of consolidated financial statements

Significant Accounting Policies

1 CORPORATE INFORMATION

"The Consolidated financial statements of Sonata Software Limited is made up of the Sonata Software Limited ("Sonata" or the "Company") together with its subsidiaries Sonata Information Technology Limited, Sonata Software North America Inc., Sonata Software GmbH, Sonata Europe Limited, Sonata Software FZ-LLC, Sonata Software (Qatar) LLC, Rezopia Inc., Halosys Technologies Inc., and Interactive Business Information Systems, Inc.

The Company is primarily engaged in the business of providing Information Technology Services and Solutions to its customers in the United States of America, Europe, Middle East and India. The Company is a public limited company incorporated in India with its registered office at Mumbai and operationally headquartered at Bengaluru. The Company is listed on The National Stock Exchange Limited and The Bombay Stock Exchange Limited. The consolidated financial statements were authorised for issuance by the Company's Board of Directors on May 22, 2018.

Material subsidiaries of the Company are:

- a) Sonata Information Technology Limited, in India through which it delivers both software development and consulting services and re-selling of product licenses of leading international software companies such as Microsoft, IBM, Oracle etc.; and
- b) Sonata Software North America Inc., in USA through which it delivers software development and consulting services to its clients in North America.

The principal accounting policies applied in the preparation of the consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated."

2 SIGNIFICANT ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION & PRESENTATION OF FINANCIAL STATEMENTS

a. Statement of compliance

The consolidated financial statements have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 and Companies (India Accounting Standards) Amendment Rules, 2016 as applicable.

Upto the year ended March 31, 2017, the Group prepared and presented its consolidated financial statements in accordance with the accounting standards notified under section 133 of the Companies Act, 2013 (Indian GAAP), which includes Standards notified under the Companies (Accounting Standards) Rules, 2006.

These are the Group's first Ind AS financial statements. The Group has adopted all applicable standards and the adoption was carried out in accordance with Ind AS 101 – 'First Time Adoption of Indian Accounting Standards'. An explanation of how the transition to Ind AS has affected the reported financial position, financial performance and cash flows of the Group are provided in Note no 43 First Time Adoption. The date of transition to Ind AS is April 1, 2016.

b. Basis of measurement

The consolidated financial statements have been prepared on a historical cost convention and on an accrual basis, except for certain financial instruments which are measured at fair value at end of the each reporting period, as explained in the accounting policies below.

c. Use of judgement, estimates and assumptions

The preparation of the consolidated financial statements in conformity with Ind AS requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities and disclosure relating to contingent liabilities as at the date of financial statement and the reported amounts of income and expenditure during the reported year. The Management believes that the estimates used in preparation of the consolidated financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialize.

The areas involving critical estimates or judgements are:

- i. **Depreciation and amortisation:** Depreciation and amortisation is based on management estimates of the future useful lives of certain class of property, plant and equipment and intangible assets. Estimates may change due to technological developments, competition, changes in market conditions and other factors and may result in changes in the estimated useful life and in the depreciation and amortisation charges.
- ii. **Impairment testing:** Investments in subsidiaries, goodwill and intangible assets are tested for impairment annually and when events occur or changes in circumstances indicate that the recoverable amount of the asset or cash generating units to which these pertain is less than its carrying value. The recoverable amount of cash generating units is higher of value-in-use and fair value less cost to dispose. The calculation of value in use of a cash generating unit involves use of significant estimates and assumptions which includes turnover growth rates and net margins used to calculate projected future cash flows, risk-adjusted discount rate, future economic and market conditions.

NOTES forming part of consolidated financial statements

- iii. **Business combination:** In accounting for business combinations, judgment is required in identifying whether an identifiable intangible asset is to be recorded separately from goodwill. Additionally, estimating the acquisition date fair value of the identifiable assets acquired (including useful life estimates), liabilities acquired and contingent consideration assumed involves management judgment. These measurements are based on information available at the acquisition date and are based on expectations and assumptions that have been deemed reasonable by management. Changes in these judgments, estimates, and assumptions can materially affect the results of operations.
- iv. **Employee Benefits :** The present value of the employee benefits obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) includes the discount rate, wage escalation and employee attrition. Any changes in these assumptions will impact the carrying amount of obligations. The discount rate is based on the prevailing market yields of Indian Government securities as at the Balance Sheet date for the estimated term of the obligations.
- v. **Provision and contingencies :** Provisions and contingencies are based on the Management's best estimate of the liabilities based on the facts known at the Balance Sheet date.
- vi. **Expected credit losses on financial assets:** The impairment provisions of financial assets are based on assumptions about risk of default and expected timing of collection. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, customer's creditworthiness, existing market conditions as well as forward looking estimates at the end of each reporting period.
- vii. **Income taxes:** The Group's two major tax jurisdictions are India and the U.S., though the Group also files tax returns in other foreign jurisdictions. Significant judgments are involved in determining the provision for income taxes, including the amount expected to be paid or recovered in connection with uncertain tax positions.
- viii. **Liability towards acquisition of businesses:** Contingent consideration representing liability towards acquisition of business is reassessed at every reporting date. Any increase or decrease in the probability of achievement of financial targets would impact the measurement of the liability. Appropriate changes in estimates are made when the Management becomes aware of the circumstances surrounding such estimates.
- xi. **Other estimates:** The preparation of consolidated financial statements involves estimates and assumptions that affect the reported amount of assets, liabilities, disclosure of contingent liabilities at the date of financial statements and the reported amount of revenues and expenses for the reporting period.

The stock compensation expense is determined based on the Group's estimate of equity instruments that will eventually vest.

Fair valuation of derivative hedging instruments designated as cash flow hedges involves significant estimates relating to the occurrence of forecast transaction.

2.2 Basis of Consolidation:

Sonata consolidates entities which it owns and controls. The consolidated financial statements comprise the financial statements of the company, its Employee Welfare Trust and its subsidiaries.

The financial statements of the Group companies are consolidated on a line by line basis and the intra group balances and transactions, including unrealized gain / loss from such transactions, are eliminated upon consolidation. These consolidated financial statements are prepared by applying uniform accounting policies in use at the Group. Non-controlling interests which represent part of the net profit or loss and net assets of the subsidiaries that are not, directly or indirectly, owned or controlled by the Company, are excluded.

The list of subsidiary companies included in the consolidated financial statements is as under:

Name of the Entity	Country of Incorporation	% of ownership held as at March 31, 2018	% of ownership held as at March 31, 2017
Sonata Information Technology Limited, India	India	100%	100%
Sonata Software North America Inc., USA	USA	100%	100%
Sonata Europe Limited, UK	UK	100%	100%
Sonata Software GmbH, Germany	Germany	100%	100%
Sonata Software FZ LLC, Dubai	UAE	100%	100%
Sonata Software (Qatar) LLC	Qatar	49%	49%
Rezopia Inc.	USA	60%	60%
Halosys Technologies Inc.	USA	100%	100%
Interactive Business Information Systems Inc.	USA	100%	100%

Note: In terms of the Memorandum and Articles of Association, the composition of the Board of Directors of Sonata Software (Qatar) LLC is controlled by the Company and hence it has been considered as subsidiary for the purpose of consolidation.

NOTES forming part of consolidated financial statements

2.3 Functional and presentation currency :

Items included in the consolidated financial statements of each of the Group's subsidiaries are measured using the currency of the primary economic environment in which these entities operate (i.e. the "functional currency"). The consolidated financial statements are presented in Indian Rupee (₹) which is the functional currency of the Company. The functional currency of its Branches is as per its respective domicile currency.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Property, Plant and Equipment

On Transition : For transition to Ind AS, the Group has elected to continue with the carrying value of all of its property, plant and equipment recognised as of April 1, 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Subsequent to Transition:

Recognition & Measurement: Property, Plant and Equipment are carried at cost less accumulated depreciation / amortization and impairment losses, if any. The cost of property, plant and equipment comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, other incidental expenses. Subsequent expenditure, if any, on property, plant and equipment after its purchase / completion is capitalized only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

b. Capital work-in-progress

Amounts paid towards the acquisition of property, plant and equipment outstanding as of each reporting date and the cost of property, plant and equipment not ready for intended use before such date are disclosed under capital work- in-progress."

c. Depreciation/ Amortisation

Depreciable amount for assets is the cost of asset less its estimated residual value.

Depreciation has been provided on buildings and plant and equipments on the straight line method and on furniture and fixtures, vehicles and office equipments on the written down method, as per the useful life prescribed in Schedule II of the Companies Act, 2013.

Leasehold land and leasehold improvements are amortized over primary lease period.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate. The Group assesses at each Balance Sheet date whether there is objective evidence that a asset or a group of assets is impaired. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

d. Intangible assets

On Transition: The Group has elected to continue with the carrying value of all of its intangible assets recognised as of April 1, 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Subsequent to Transition:

Recognition & Measurement: Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and impairment losses, if any.

Amortization is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each reporting period.

Intangible assets under development: Expenditure on Research and development eligible for capitalisation are carried as Intangible assets under development where such assets are not yet ready for their intended use.

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in Statement of Profit and Loss when the asset is derecognized.

NOTES forming part of consolidated financial statements

The estimated useful lives of intangibles are as follows:

Category	Useful Life
Computer Software	3 years
Internally generated - Software	2 years
Intellectual property acquired through business combinations	5 years
Non competent covenant	4 years
Vendor relationships	7 years
Customer relationships	7 years

e. Business combination, Goodwill and Intangible assets:

Business combinations are accounted for using the purchase (acquisition) method. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Transaction costs incurred in connection with a business combination are expensed as incurred.

- Goodwill- The excess of the cost of acquisition over the Group's share in the fair value of the acquiree's identifiable assets, liabilities and contingent liabilities is recognized as goodwill. If the excess is negative, a bargain purchase gain is recognized in capital reserve.
- Intangible assets - Ind AS 103 requires the identifiable intangible assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets. These valuations are conducted by independent valuation experts.

f. Research & development expenses

Research expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are also charged to the Statement of Profit and Loss unless a product's technical feasibility has been established, in which case such expenditure is capitalized. The amount capitalized comprises expenditure that can be directly attributed or allocated on a reasonable and consistent basis to creating, producing and making the asset ready for its intended use.

g. Foreign Currency transactions and translations

Transactions in foreign currency are translated into the respective functional currencies using the exchange rates prevailing at the dates of the respective transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the exchange rates prevailing at reporting date of monetary assets and liabilities denominated in foreign currencies are recognized in the Statement of Profit and Loss and reported within foreign exchange gains/ (losses).

Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Foreign currency gains and losses are reported on a net basis. This includes changes in the fair value of foreign exchange derivative instruments, which are accounted at fair value through profit or loss.

The translation of financial statements of the foreign subsidiaries to the presentation currency is performed for assets and liabilities using the exchange rate in effect at the Balance Sheet date and for revenue, expense and cash flow items using the daily exchange rate for the respective periods. The gains or losses resulting from such translation are included in currency translation reserves under Other Comprehensive Income (OCI).

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the exchange rate in effect at the Balance Sheet date.

h. Financial Instruments

Financial assets : The Group classifies its financial assets in the following categories:

- Financial assets at amortised cost** - Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost.

They are presented as current assets, except for those maturing later than 12 months after the reporting date which are presented as non-current assets. Financial assets are measured initially at fair value which usually represents cost plus transaction costs and subsequently carried at amortised cost using the effective interest method, less any impairment loss if any.

NOTES forming part of consolidated financial statements

Financial assets at amortised cost are represented by trade receivables, security and other deposits, cash and cash equivalent, employee and other advances.

- ii. **Equity investments** - Investment in subsidiaries are stated at cost less impairment loss if any.
- iii. **Financial Assets at Fair Value through Other Comprehensive Income (FVTOCI)** - For assets, if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and where the company has exercised the option to classify the equity investment as at FVTOCI, all fair value changes on the investment are recognised in OCI. The accumulated gains or losses on such investments are not recycled to the Statement of Profit and Loss even on sale of such investment.
- iv. **Financial assets at Fair Value through Profit and loss (FVTPL)** - Financial assets which is not classified in any of the above category is measured at FVTPL. These include surplus funds invested in mutual funds etc.

Financial liabilities

Initial recognition and measurement - Financial liabilities are measured at amortised cost using effective interest method. For trade and other payable maturing within one year from the Balance Sheet date, the carrying value approximates fair value due to short maturity.

Derivative financial instruments and hedging activities

A derivative is a financial instrument which changes value in response to changes in an underlying asset and is settled at a future date. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. The method of recognizing the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

The Group enters into derivative contracts to hedge the risks asserted with currency fluctuations relating to firm commitments and highly probable transactions. The Group does not use derivative instruments for speculative purposes.

The Group documents, at the inception of the transaction, the relationship between hedging instruments and hedged items, as well as its risk management objectives and strategy for undertaking various hedging transactions. The Group also documents its assessment, both at hedge inception and on an on-going basis, of whether the derivatives that are used in hedging transactions are effective in offsetting changes in cash flows of hedged items.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in Other Comprehensive Income. The ineffective portion of changes in the fair value of the derivative is recognised in the Statement of Profit and Loss.

Amounts accumulated in hedging reserve are reclassified to the Statement of Profit and Loss in the periods when the hedged item affects the Statement of Profit and Loss.

The full fair value of a hedging derivative is classified as a current/ non-current, asset or liability based on the remaining maturity of the hedged item.

When a hedging instrument expires, swapped or unwound, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in Statement of Changes in Equity is recognised in the Statement of Profit and Loss.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Balance Sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

Fair value measurement

The Group classifies the fair value of its financial instruments in the following hierarchy, based on the inputs used in their valuation:

- i) Level 1 - The fair value of financial instruments quoted in active markets is based on their quoted closing price at the Balance Sheet date.
- ii) Level 2 - The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques using observable market data. Such valuation techniques include discounted cash flows, standard valuation models based on market parameters for interest rates, yield curves or foreign exchange rates, dealer quotes for similar instruments and use of comparable arm's length transactions
- iii) Level 3 - The fair value of financial instruments that are measured on the basis of entity specific valuations using inputs that are not based on observable market data (unobservable inputs). When the fair value of unquoted instruments cannot be measured with sufficient reliability, the Group carries such instruments at cost less impairment, if applicable.

NOTES forming part of consolidated financial statements

i. Employee Benefits

Employee benefits include provident fund, employee state insurance scheme, gratuity fund, superannuation fund and compensated absences.

Provident Fund: Employees receive benefits from a provident fund, which is a defined benefit plan. The employer and employees each make periodic contributions to the plan. A portion of the contribution is made to the approved provident fund trust managed by the Trustees of Sonata Software Limited Provident Fund while the remainder of the contribution is made to the government administered pension fund. The contributions to the trust managed by the Company is accounted for as a defined contribution plan as the Company is liable for any shortfall in the fund assets based on the government specified minimum rates of return.

Social security plans - Defined Contributions payable to the social security plans for employees working abroad under multiple jurisdictions, are charged to the consolidated Statement of Profit and Loss in the period in which the employee renders services.

Gratuity: The Group provides for Gratuity, a defined benefit plan covering the eligible employees. The Gratuity plan provides a lump-sum payment to vested employees at retirement, death or termination of employment, of an amount based on the respective employee's salary and tenure of the employment with the Company.

Liabilities with regard to the Gratuity plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using projected unit method. The Group fully contributes all ascertained liabilities to the trust managed by the Trustees of Sonata Software Limited Gratuity Fund. The Trustees administers the contributions made to the Trust. The fund's investments are managed by certain insurance companies as per the mandate provided to them by the trustees and the asset allocation is within the permissible limits prescribed in the insurance regulations.

Actuarial gains and losses are recognised in the Other Comprehensive Income in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the schemes.

Superannuation Fund: Certain employees of the Group are participants in a defined contribution plan of superannuation. The Group has no further obligations to the plan beyond its monthly contributions which are periodically contributed to the Sonata Software Limited Superannuation Fund Trust, the corpus of which is invested with the Life Insurance Company.

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under :

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

Long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date less the fair value of the plan assets out of which the obligations are expected to be settled. Long Service Awards are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date.

j. Share based payments

Employees of the Group receive remuneration in the form of cash settled share based transaction, for rendering services over a defined vesting period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. The equity instruments are granted by the Employee Welfare Trust.

The expense is recognized in the Statement of Profit and Loss with a corresponding increase to the share based payment reserve, a component of equity.

The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortization).

The fair value of the amount payable to the employees in respect of Stock Appreciation Rights (SAR), which are settled in cash, is recognized as an expense with a corresponding increase in liabilities, over the period during which the employees become

NOTES forming part of consolidated financial statements

unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the SAR plan. Any changes in the liability are recognized in Statement of Profit and Loss."

k. Provisions

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are determined by discounting the expected future cashflows at pre-tax rate that reflects the current market assessments of the time value of the money and the risks specific to the liability. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

l. Income Taxes

Income tax comprises current and deferred tax. Income tax expense is recognized in the Statement of Profit and Loss except to the extent it relates to items directly recognized in equity or in Other Comprehensive Income.

a) Current income tax - Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted by the reporting date and applicable for the period. The Group off sets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis or to realize the asset and liability simultaneously.

b) Deferred tax - Deferred income tax is recognized using the Balance Sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction.

Deferred income tax asset is recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred income tax liabilities are recognized for all taxable temporary differences.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as deferred tax asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

m. Leases:

Leases under which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments under operating leases are recognised as an expense on a straight line basis in the Statement of Profit and Loss over the lease term except where the lease payments are structured to increase in line with expected general inflation.

n. Cash flow Statement:

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipt or payments and item of income or expense associated with investing or financing cash-flows. The cash flow from operating, investing and financing activities of the Group are segregated.

o. Revenue Recognition

The Group derives revenue primarily from Information Technology Services and Solutions. The Group recognizes revenue when the significant terms of the arrangement are enforceable, services have been delivered and the collectability is reasonably assured. The method for recognizing revenues and costs depends on the nature of the services rendered:

a) Time and materials contracts

Revenues from contracts priced on a time and material basis are recognised when services are rendered and related costs are incurred.

NOTES forming part of consolidated financial statements

b) Fixed-price contracts

Revenues from fixed price contracts are recognised over the life of the contract using percentage of completion method, with contract costs determining the stage of completion at the end of the reporting period. Foreseeable losses on such contracts are recognised when probable.

c) Hardware/software products and licenses

Revenues from sale of product and licenses are recognised on transfer of significant risks and rewards of ownership to the buyers, which generally coincides with delivery where there is no customization required. In case of customization the same is recognised over the life of the contract using the proportionate completion method, with contract costs determining the degree of completion. Foreseeable losses on such contracts are recognised when probable.

d) Maintenance Contracts

Revenue from maintenance contracts is recognized ratably over the period of the contract using the "percentage-of-completion" method. When services are performed through an indefinite number of repetitive acts over a specified period of time, revenue is recognized on a straight line basis over the specified period or under some other method that better represents the stage of completion.

Revenues are reported net of GST, VAT and applicable discounts and allowances.

p. Borrowing Costs:

Borrowing costs consist of interest, ancillary and other costs that the Group incurs in connection with the borrowing of funds and interest relating to other financial liabilities. Borrowing costs also include exchange differences to the extent regarded as an adjustment to the borrowing costs.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur.

q. Foreign Currency transactions and translations

Transactions in foreign currency are translated into the respective functional currencies using the exchange rates prevailing at the dates of the respective transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the exchange rates prevailing at reporting date of monetary assets and liabilities denominated in foreign currencies are recognized in the Statement of Profit and Loss and reported within foreign exchange gains/ (losses).

Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Foreign currency gains and losses are reported on a net basis.

r. Finance Income and expense

Finance income consists of interest income on funds invested, dividend income and fair value gains on the FVTPL financial assets. Interest income is recognized as it accrues in the statement of profit and loss, using the effective interest method.

Dividend income is recognized in the statement of profit and loss on the date that the Company's right to receive payment is established.

Finance expenses consist of interest expense on loans and borrowings. Borrowing costs are recognized in the Statement of Profit and Loss using the effective interest method.

s. Impairment

- a) Financial assets : In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss.

The Group assesses at each Balance Sheet date whether a financial asset or a group of financial assets is impaired. The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivable. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Group recognizes lifetime expected credit losses for all trade receivables and/or other contract assets that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

ECL allowance (or reversal) is recognised as income / expense in the Statment of Profit and Loss.

NOTES forming part of consolidated financial statements

b) Non-financial assets

The Group assesses at each reporting date whether there is any objective evidence that a non financial asset or a group of non financial assets is impaired. If any such indication exists, the Group estimates the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognised in profit or loss and reflected in an allowance account. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through profit or loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

The goodwill acquired in a business combination is, for the purpose of impairment testing, allocated to cash-generating units that are expected to benefit from the synergies of the combination.

Goodwill is tested for impairment on an annual basis and whenever there is an indication that goodwill may be impaired, relying on a number of factors including operating results, business plans and future cash flows. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the Group's cash generating units (CGU) or groups of CGU's expected to benefit from the synergies arising from the business combination. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets. Impairment occurs when the carrying amount of a CGU including the goodwill, exceeds the estimated recoverable amount of the CGU. The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. Value-in-use is the present value of future cash flows expected to be derived from the CGU. Total impairment loss of a CGU is allocated first to reduce the carrying amount of goodwill allocated to the CGU and then to the other assets of the CGU prorata on the basis of the carrying amount of each asset in the CGU. An impairment loss on goodwill is recognised in consolidated Statement of Profit and Loss and is not reversed in the subsequent period.

t. Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. For the purpose of computing diluted earnings per share, profit / (loss) after tax and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

u. Contingent Liabilities

Contingent liabilities exist when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or nonoccurrence of one or more uncertain future events not wholly within the control of the Group, or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required or the amount cannot be reliably estimated. Contingent liabilities are appropriately disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

v. Contingent Assets

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The Group does not recognize a contingent asset.

w. Events after the reporting period

Adjusting events are events that provide further evidence of conditions that existed at the end of the reporting period. The consolidated financial statements are adjusted for such events before authorisation for issue.

Non-adjusting events are events that are indicative of conditions that arose after the end of the reporting period. Non-adjusting events after the reporting date are not accounted, but disclosed.

x. First-time adoption – mandatory exceptions, optional exemptions

The consolidated financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended, read with relevant rules issued thereunder in terms of the SEBI LODR, as modified by Circular No CIR/CFD/FAC/62/2016 dated July 5, 2016.

For periods up to and including the year ended March 31, 2017, the Group prepared its consolidated financial statements in accordance with the then applicable Accounting Standards in India ('previous GAAP'). The adoption of Ind AS was carried out in accordance with Ind AS 101, considering April 01, 2016 as the transition date. Pursuant to adoption of Ind AS, the differences in the carrying amounts of assets and liabilities on the transition date under the previous GAAP and the balances on adoption of Ind AS have been recognised directly in equity. The consolidated financial statements for the year ended March 31, 2018,

NOTES forming part of consolidated financial statements

March 31, 2017 and April 01, 2016 have been presented under Ind AS for comparative purposes. Accounting policies have been applied consistently to all periods presented in these Consolidated Financial Results.

In preparing the opening Ind AS statement of financial position, adjustments are carried out to the amounts reported in consolidated financial statements prepared in accordance with previous GAAP. An explanation of how the transition from previous GAAP to Ind AS has affected our financial performance, cash flows and financial position is set out in Note No 43.

y. New standards and interpretations not yet adopted

Appendix B to Ind AS 21, Foreign currency transactions and advance consideration: On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. The amendment will come into force from April 1, 2018. The Group is evaluating the effect of this on the consolidated financial statements.

Ind AS 115- Revenue from Contract with Customers: On March 28, 2018, the Ministry of Corporate Affairs notified Ind AS 115 Revenue from Contracts with Customers. The standard replaces Ind AS 11 Construction Contracts and Ind AS 18 Revenue.

The new standard applies to contracts with customers. The core principle of the new standard is that an entity should recognize revenue to depict transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further, the new standard requires enhanced disclosures about the nature, timing and uncertainty of revenues and cash flows arising from the entity's contracts with customers. The new standard offers a range of transition options. An entity can choose to apply the new standard to its historical transactions and retrospectively adjust each comparative period. Alternatively, an entity can recognize the cumulative effect of applying the new standard at the date of initial application - and make no adjustments to its comparative information. The chosen transition option can have a significant effect on revenue trends in the financial statements. A change in the timing of revenue recognition may require a corresponding change in the timing of recognition of related costs. The standard is effective for annual periods beginning on or after April 1, 2018. The Group is currently evaluating the requirements of Ind AS 115, and has not yet determined the impact on the consolidated financial statements.

Balance at end of year		8,067	8,029

ii) Allocation of goodwill to cash generating units:

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to cash generating units (CGU), to be benefited through the synergies of the acquisition. On each reporting date, the company reviews the goodwill for any impairment, which is represented through CGU's.

Goodwill has been allocated for impairment testing purposes to the following cash-generating units:

(₹ in lakhs)

IBIS	5,010	4,985	5,092
Total	8,067	8,029	8,202

At the end of each reporting period, the recoverable amount of a CGU is higher of its fair value less cost to sell and its value-in-use. The fair value of a CGU is determined based on the market capitalization. The value in use determined based on the specific calculations. These calculations are based on net present value of cash flow projections over a period of five years discounted at the rate of 12%. Cash flow projections are based on financial budgets approved by management.

As at the end of each financial years, the estimated recoverable amount of the CGU exceeded its carrying amount, hence impairment is not required.

d) Other claims against the Company not acknowledged as debt	1,002	1,002
e) Disputed demands of Income-tax	47,231	46,182

Details of disputed demands of Income-tax primarily relates to:

(₹ in lakhs)

(i) Disallowance of claims made under Section 10A of the Income-tax Act, 1961

The Company does its business of software exports through multiple operating units or undertakings registered under the Software Technology Park Scheme of India. In computing taxable profit from the export of software, the Company claims exemptions provided to registered software technology parks, undertakings and units as provided under Section 10A of the Income-tax Act, 1961 ("Act").

The Income-tax department in its assessments has been denying or limiting the benefits of Section 10A of the Act to the multiple undertakings of the Company on the ground that they were in fact one single unit and thus the benefits claimed were in excess of permissible limits, and had raised a demand of ₹ 5,001 (As at March 31, 2017 - ₹ 5,001) for financial years from 2007-08 to 2009-10. The company received favourable order from CIT(A) and the Department has preferred an appeal before Income-tax Appellate Tribunal (ITAT).

For the financial year 2006-07 ₹ 2,368 (As at March 31, 2017- ₹ Nil), the Company has received favorable order from Income-tax Appellate Tribunal (ITAT) and the Department has preferred an appeal before the Honorable High Court of Mumbai.

For the financial year 2001-02, ITAT had given a favorable order on the ground of income accrued under Section 10A of the Act against which the department had filed an appeal before the Honorable High Court of Mumbai ₹ 149 (As at March 31, 2017 - ₹ 149).

For the financial year 2013-14 ₹ 44 (As at March 31, 2017 - Nil), the Company has preferred an appeal before CIT(A).

(ii) Disallowance of Inter-Company Service Charges

a) The Company charges Sonata Information Technology Limited, its wholly owned subsidiary, for certain support services rendered. During assessments, the Income-tax department denied benefits under Section 10A of the Income Tax Act on such support services and assessed the same as normal business income and raised demand of ₹ 2,337 (As at March 31, 2017 - ₹ 2,337) for financial years from 2001-02 to 2004-05. The Company had received favorable orders from ITAT. However, the department preferred an appeal on the said orders before the Honorable High Court of Mumbai.

₹ 116 (As at March 31, 2017- ₹ 116) for the financial year 2010-11. The Company had filed an appeal before the CIT(A). The Company has received favorable orders and the Department has preferred an appeal before ITAT.

b) The Company charges SITL for certain support services rendered and for the cost of project personnel deputed. These support services and costs for deputation are being disallowed by the Income-tax department while computing taxable profits of SITL. SITL has challenged these disallowances and consequent demands at appellate levels and is confident of a favorable outcome.

Details of Demands and Forums where they are pending are:

- ₹ 5,014 (As at March 31, 2017 - ₹ 4,030) for the financial years 2001-02, 2003-04 to 2008-09. The Company has received favorable orders from the ITAT. The Income-tax department has preferred an appeal to the Honorable High Court of Mumbai.
- ₹ 447 (As at March 31, 2017 - ₹ 447) for the financial year 2002-03. The Income-tax department's appeal to the Honorable High Court of Mumbai was time barred and hence dismissed. The Income-tax department had preferred a Special Leave Petition on the said dismissal to the Honorable Supreme Court of India which had referred the petition back to the Honorable High Court of Mumbai to reconsider its decision. The Honorable High Court of Mumbai admitted the appeal.
- Nil (As at March 31, 2017 - ₹ 1,119) for the financial year 2010-11. The Company has received favorable order from ITAT. The Income-tax department has preferred an appeal to the Honorable High Court of Mumbai.
- Nil (As at March 31, 2017 - ₹ 2,944) for the financial years 2012-13 and 2013-14. The Company has received favorable order from CIT(A).
- ₹ 1,919 (As at March 31, 2017 Nil) for financial year 2011-12, the Company has filed appeal before ITAT and for financial year 2014-15, the Company has filed appeal before CIT (A).

(iii) Withholding tax demand

The Income-tax department has been contending that amounts paid by the Company for buying the software products is in the nature of 'Royalty' and hence had to withhold Income-tax on the same as per the Income Tax Act and had raised demand of ₹ 2,842 (As at March 31, 2017 - ₹ 2,842) for the financial years from 1999-00 to 2001-02. The Company's contention has been that the payments were made for purchase of 'Goods' and hence was under no obligation to withhold Income-tax on the same. The Company had received favorable orders from the ITAT which were reversed by the Honorable High Court of Karnataka. The Company had preferred a Special Leave Petition Appeal on the said order to the Honorable Supreme Court of India, which had been admitted. However, for these years one of the principal suppliers of software to the Company had paid taxes of ₹ 879 out of the above demand. The amount included as disputed demand is excluding the amount paid by the supplier.

SITL is engaged in the business of buying and selling packaged software in India. The Income Tax department has been contending that amounts paid by the Company for buying the software products is in the nature of 'Royalty' and hence had to withhold Income-tax on the same as per the Income-tax Act, 1961, and had raised demands of ₹ 2,182 (As at March 31, 2017 - ₹ 2,182) for the financial years 2000-01 and 2001-02. The Company's contention has been that the payments were made for purchase of 'Goods' and hence was under no obligation to withhold Income-tax on the same. The Company had received favorable orders from the Income-tax Appellate Tribunal which were reversed by the Honorable High Court of Karnataka. The Company had preferred a Special Leave Petition on the said order to the Honorable Supreme Court of India, which had been admitted. However, for these years one of the principal suppliers of software to the Company had paid taxes of ₹ 1,286 out of the above demand. The amount included as disputed demand is excluding the amount paid by the supplier.

(iv) Deductions claimed under Section 80 O

Prior to the enactment of Section 10A of the Act, the Company claimed deduction for exports made, under Section 80 O of the Act. The department had re-opened the assessments and disallowed certain aspects of the claims made on the contention that cost allocation principles followed for the claim are erroneous and raised a demand of ₹ 83 (As at March 31, 2017 - ₹ 83) for the financial year 1994-95. The Company had received favorable orders from ITAT. The department had preferred an appeal on the said order before the Honorable High Court of Mumbai.

(v) Disallowance of payments made for purchase of software on which Income-tax was not withheld.

Payment in the nature of Royalty on which Income-tax have not been deducted at source are subject to disallowance as an 'expense' as per Sections 40(a)(i) and 40(a)(ia) while computing taxable profits of the Company. Consequent to issue described in (ii) above, the Income-tax department, holding payments for purchase of software as "Royalty" disallowed the same while computing taxable profits of the Company.

The Honorable High Court of Karnataka had given an unfavorable decision on the issue covered in (ii) above. However, the said demands which are consequential and penal in nature do not arise automatically and there are multiple legal precedents in favor of the Company. Based on legal opinions and feedback from its legal counsels, the Company is confident of a favorable outcome on these consequential demands.

Details of demands raised and the forum where these are pending are:

- i. ₹ 23,643 (As at March 31, 2017 - ₹ 23,643) of tax demand for the financial years 2001-02, 2002-03, 2006-07 and 2007-08. The Company had received a favorable order from ITAT. The Income-tax department had preferred an appeal to the Honorable High Court of Mumbai.
- ii. ₹ 14 (As at March 31, 2017 - ₹ 127) for the financial years 2012-13 to 2014-15 the Company has filed an appeal before the CIT (A).

(vi) Transfer Pricing Adjustment

₹ 1,072 (As at March 31, 2017 - ₹ 1,162) for the financial years 2011-12 and 2013-14. The Income-tax department has recommended the upward adjustment in the value of Investment in subsidiary and sale of services to associated enterprises as Transfer Pricing Adjustment in the International transactions in order to consider them to be at arm's length price. The Company had preferred an appeal before CIT(A) heard and partly allowed. For the financial year 2011-12, the Company has preferred an appeal before ITAT. For the financial year 2013-14, the company has preferred an appeal before CIT (A).

- f) In addition, the Company in the ordinary course of business receives various claims from its customers and other business partners. Based on review of such matters and the information available at this time, the Company does not anticipate that any of these will result in a settlement that will have a material impact on its financial statements.

The management assessed that fair value of cash and short-term deposits, trade receivables, trade payables, inter corporate deposits and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

1. Long-term fixed-rate receivables/borrowings are evaluated by the Group based on parameters such as interest rates, specific country risk factors, individual creditworthiness of the customer and the risk characteristics of the financed project.

NOTES forming part of consolidated financial statements

- The fair value of the quoted mutual funds are based on price quotations at reporting date. The fair value of loans from banks and other financial liabilities, as well as other non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. In addition to being sensitive to a reasonably possible change in the forecast cash flows or discount rate, the fair value of the equity instruments is also sensitive to a reasonably possible change in the growth rates. The valuation requires management to use unobservable inputs in the model, of which the significant unobservable inputs are disclosed in the tables below. Management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value.
- The Group enters into derivative financial instruments with Banks. Foreign exchange forward contracts are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include forward pricing model, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spreads between the respective currencies, interest rate curves etc. As at March 31, 2018, the marked-to-market value of derivative asset positions is net of a credit valuation adjustment attributable to derivative counterparty default risk. The changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationship and other financial instruments recognised at fair value.

Fair value hierarchy

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following table presents the fair value measurement hierarchy of financial assets and liabilities measured at fair value on recurring basis as at March 31, 2018, March 31, 2017 and April 1, 2016.

Quantitative disclosures of fair value measurement hierarchy for financial assets is as under:

Derivative financial instruments

The Group is exposed to foreign currency fluctuations on foreign currency assets/ liabilities and forecasted cash flows denominated in foreign currency. The Group follows established risk management policies, including the use of derivatives to hedge foreign currency assets/ liabilities and foreign currency forecasted cash flows. The counter party in these derivative instruments is a bank and the Group considers the risks of non-performance by the counterparty as non-material.

For movement in cash flow hedge reserve gain or loss - refer note 12

30. Financial risk management

The Group's activities expose it to a variety of financial risks: credit risk, liquidity risk, foreign currency risk and interest rate risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Group is foreign exchange risk. The Group uses derivative financial instruments to mitigate foreign exchange related risk exposures. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Group's policy that no trading in derivative for speculative purposes may be undertaken.

The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below:

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investment securities. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Group assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment.

NOTES forming part of consolidated financial statements

The following table gives details in respect of revenues generated from top customer and top 5 customers (excluding Inter-company):

(₹ in lakhs)

Particulars	For the year ended March 31, 2018	For the year ended March 31, 2017
Revenue from top customer	45,125	45,309
Revenue from top 5 customers	98,661	92,885

One customer accounted for more than 10% of the revenue for the year ended March 31, 2018, however none of the customers accounted for more than 10% of the receivables for the year ended March 31, 2018. One customer accounted for more than 10% of the revenue for the year ended March 31, 2017, however none of the customers accounted for more than 10% of the receivables for the year ended March 31, 2017.

Investments

The Group limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Group does not expect any losses from non-performance by these counterparties, and does not have any significant concentration of exposures to specific industry sectors.

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they become due. The Group manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due. Also, the Group has unutilized credit limits with banks.

The Group's corporate treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management.

The working capital position of the Group is given below:

(₹ in Lakhs)

Foreign Currency risk

The Group's exchange risk arises from its foreign operations, foreign currency revenues and expenses, (primarily in U.S. dollars, British pound sterling and euros). A significant portion of the Group's revenues are in these foreign currencies, while a significant portion of its costs are in Indian rupees. As a result, if the value of the Indian rupee appreciates relative to these foreign currencies, the Group's revenues measured in rupees may decrease. The exchange rate between the Indian rupee and these foreign currencies has changed substantially in recent periods and may continue to fluctuate substantially in the future. The Group reviews on a periodic basis to formulate the strategy for foreign currency risk management.

NOTES forming part of consolidated financial statements

Consequently, the Group uses derivative financial instruments, such as foreign exchange forward contracts, to mitigate the risk of changes in foreign currency exchange rates in respect of its forecasted cash flows and trade receivables.

The details in respect of the outstanding foreign exchange forward contracts are given under the derivative financial instruments section.

In respect of the Group's forward contracts, a 1% decrease/ increase in the respective exchange rates of each of the currencies underlying such contracts would have resulted in:

- a) an approximately ₹ 167 lakhs increase and decrease in the Group's net profit as at March 31, 2018;
- b) an approximately ₹ 70 lakhs increase and decrease in the Group's net profit as at March 31, 2017.

The following table presents foreign currency risk from non-derivative financial instruments as at March 31, 2018, March 31, 2017 and April 1, 2016.

For the year ended March 31, 2018, every 1% increase/(decrease) of the respective foreign currencies compared to functional currency of the Company would impact operating margins by 0.04%/ (0.04)%. For the year ended March 31, 2017, the impact on operating margins would be 0.01%/ (0.01)%.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt obligations with floating interest rates and investments. The Group's borrowings and investments are primarily short-term, which do not expose it to significant interest rate risk.

31. Capital management

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Group monitors the return on capital as well as the level of dividends on its equity shares. The Group's objective when managing capital is to maintain an optimal structure so as to maximize shareholder value.

NOTES forming part of consolidated financial statements

The capital structure of the Group consists of net debt (borrowings offset by cash and bank balances) and total equity.

The capital structure is as follows:

(₹ in Lakhs)

Particulars	As at March 31, 2018	As at March 31, 2017	As at April 1, 2016
Total equity attributable to the equity share holders of the Group	65,326	59,075	47,645
As percentage of total capital	97%	94%	74%
Current borrowings	-	178	11,905
Non-Current borrowings	1,868	3,357	5,223
Total Borrowings	1,868	3,535	17,128
As a percentage of total capital	3%	6%	26%
Total capital (borrowings and equity)	67,194	62,610	64,773

The Group is predominantly equity financed which is evident from the capital structure table. Further, the Group has always been a net cash Company with cash and bank balances along with investment which is predominantly investment in liquid and short term mutual funds being far in excess of debt.

32. Employee benefit plans

i) Defined contribution plans

a) Provident fund

The Group makes contributions towards Provident Fund under a defined contribution plan for qualifying employees. The Provident Fund is administered by the Trustees of Sonata Software Limited Provident Fund and by the Regional Provident Fund Commissioner. Under this scheme, the Group is required to contribute a specified percentage of payroll cost to fund the benefits.

The Rules of the Company's Provident Fund administered by the Trust require that if the Board of Trustees are unable to pay interest at the rate declared for Employees' Provident Fund by the Government under para 60 of the Employees' Provident Fund Scheme, 1952 for the reason that the return on investment is less or for any other reason, then the deficiency shall be made good by the Company. Having regard to the assets of the Fund and the return on the investments, the Company does not expect any deficiency in the foreseeable future. There has also been no such deficiency since the inception of the Fund.

Provident fund contributions amounting to ₹ 1,196 lakhs (for the year ended March 31, 2017 ₹ 1,027 lakhs) has been charged to the Statement of Profit and Loss (as part of Contribution to Provident Fund and other Funds in Note 23 Employee benefits expense).

b) During the year the Group has recognised the following amounts in the Statement of Profit and Loss towards Employers contribution to:

(₹ in lakhs)

43. Transition to Ind AS

The Company's financial statements for the year ended March 31, 2018 are prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015. The adoption of Ind AS was carried out in accordance with Ind AS 101, using April 1, 2016 as the transition date. Ind AS 101 requires that all Ind AS standards and interpretations that are effective for the Ind AS financial statements for the year ended March 31, 2018, be applied consistently and retrospectively for all fiscal years presented. All applicable Ind AS have been applied consistently and retrospectively wherever required. The resulting difference between the carrying amounts of the assets and liabilities in the financial statements under both Ind AS and Indian GAAP as at the transition date have been recognized directly in equity at the transition date.

In preparing these financial statements, the Company has availed itself of certain exemptions and exceptions in accordance with Ind AS 101 as explained below:

(i) Exceptions from full retrospective application

Estimates exception: Upon an assessment of the estimates made under Indian GAAP, the Company has concluded that there was no necessity to revise such estimates under Ind AS, except where estimates were required by Ind AS and not required by Indian GAAP.

ii) Exemptions from retrospective application:

Share-based payment exemption: The Company has availed exemption available under Ind AS 101 on application of Ind AS 102, "Share Based Payment", to equity instruments that vested before the date of transition to Ind AS.

NOTES forming part of consolidated financial statements

Notes

i. Business combination:

Under Ind AS, the acquiree's identifiable assets, liabilities and contingent consideration payable on business combination that meet the condition for recognition are considered at their fair value. This has resulted in the recognition of intangible assets and consequently their amortisation in the statement of profit and loss. while under previous GAAP, the assets & liabilities of the acquiree are recognised at cost.

Further under Ind AS, Earnout consideration payable on business combination is measured at fair value while under previous GAAP it is recognised at cost.

ii. Fair valuation of investments:

(a) Under Ind AS, financial assets and financial liabilities are required to be measured at fair value. The resulting fair value change of these investments has been recognised in the retained earnings as at the date of transition and subsequently in the profit or loss for the year ended 31 March 2017. Mutual fund investments have been classified as FVTPL. Consequently, increase in fair value of such investments in quoted mutual funds has resulted in a gain. Under previous GAAP, investments in equity instruments and Mutual funds were classified as long-term investments or current investments based on the intended holding period and its realisability. Long term investments were carried at cost less provision for other than temporary decline in the value of such investments. Current investments were carried at lower of cost and fair value.

iii. Security deposits:

Under previous GAAP, Lease security deposits (that are refundable in cash on completion of the lease term) are recorded at their transaction value. Under Ind AS, the difference between the Fair value and transaction value of the security deposits has been recognised as prepaid rent. The lease rentals paid in advance are charged to the statement of profit and loss over the lease term.

iv. Deferred Tax:

Under previous GAAP, Tax expenses in the consolidated financial statements was computed by performing line by line addition of tax expense of the parent and its subsidiaries. No adjustments to tax expenses was made on consolidation. Under Ind AS, Deferred taxes have been recognised on the adjustments made on transition to Ind AS.

v. Consolidation of Employee Welfare Trust:

Under Ind AS, the company is required to consolidate Sonata Employee Welfare Trust Accounts, which is under common control. Under previous GAAP, the same was not consolidated.

vi. Hedge Accounting/Forward contracts:

Under Ind AS the effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in Other Comprehensive Income. The ineffective portion of changes in the fair value of the derivative is recognised in the Statement of Profit and Loss. Under previous GAAP, the gain or loss on the hedging instrument that is determined to be an effective hedge was recognized directly in the appropriate equity account.

vii. Employee stock option plan:

Under the previous GAAP, the cost of equity-settled employee share-based plan were recognised using the intrinsic value method. Under Ind AS, the cost of equity-settled share based plan is recognised based on the fair value of the options as at the grant date.

viii. Remeasurement of Defined benefit obligations:

Under previous GAAP, actuarial gains and losses were recognised in the statement of Profit and Loss. Under Ind AS, the actuarial gains and losses form part of remeasurement of the net defined benefit liability/ asset which is recognised in Other Comprehensive Income. Consequently, the tax effect of the same has also been recognised in Other Comprehensive Income under Ind AS instead of the statement of Profit and Loss.

SECRETARIAL AUDIT REPORT

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No.9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2018

To
The Members,
Sonata Information Technology Limited
CIN: U72300MH2000PLC127476

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Sonata Information Technology Limited (CIN: U72300MH2000PLC127476) (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2018 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by Sonata Information Technology Limited for the financial year ended on 31st March, 2018 according to the provisions of:

- i. The Companies Act, 2013 (the Act) and the rules made thereunder;
- ii. The other general laws as may be applicable to the Company like Payment of Gratuity Act etc
- iii. The Industry specific laws applicable to the Company are as follows:
 - The Information Technology Act, 2000
 - The Special Economic Zone Act, 2005
 - Policy relating to Software Technology Parks of India and its regulations
 - The Indian Copyright Act, 1957
 - The Patents Act, 1970
 - The Trade Marks Act, 1999

(vii) The other general laws as may be applicable to the Company including the following:

- Karnataka Shops & Commercial Establishment Act & Rules
- The ESI Act & General Regulations
- The Employees Provident Funds & Miscellaneous Provisions Act
- The Minimum Wages Act & Rules
- The Payment of Wages Act & Rules
- The Payment of Gratuity Act & Rules
- The Payment of Bonus Act & Rules
- The Maternity Benefit Act
- The Equal Remuneration Act
- The Employment Exchanges (CNV) Act & Rules
- The Karnataka Labour Welfare Fund Act & Rules
- Industrial Employment Standing Orders Act
- The Karnataka (National & Festival) Holidays Act & Rules
- The sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act
- For majority of Central Labour Laws the States have introduced Rules [names of each of the Rules is not included here]
- The Competition Act, 2002
- The Indian Contract Act, 1872
- The Sales of Goods Act, 1930
- The Indian Stamp Act, 1899
- The Transfer of Property Act, 1882

I have also examined compliances with the applicable clauses of Secretarial Standards issued by the Institute of Company Secretaries of India on the Board and General meeting i.e. SS-1 and SS-2.

During the period under review, the Company has complied with the provisions of the Acts, Rules, Regulations, Guidelines, Standards, etc. mentioned above. Certain non material findings made during the course of the audit relating to Companies Act and Labour Laws were addressed suitably by the Management.

Further, I report that with regard to financial and taxation matters, I have relied on the draft Audit Report, Limited Review Report and the Internal Audit Report provided by the Statutory/Internal Auditor as the case may be.

I further report that

The Board of Directors of the Company is duly constituted with proper balance of Non-Executive Directors and Independent Directors. There were no changes in the composition of the Board of Directors during the period under review.

Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance (in certain instances, detailed notes on agenda were sent within seven days, with the consent of Directors), and a system exists for seeking and obtaining further information and clarifications on the agenda items before the Meeting and for meaningful participation at the Meeting.

Majority decision is carried through while the dissenting members' views are captured and recorded as part of the minutes as per the practice followed. However, during the period under report, there was no such case instance.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF SONATA INFORMATION TECHNOLOGY LIMITED

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of **Sonata Information Technology Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2018, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order issued under section 143(11) of the Act.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Other Matters

The comparative financial information of the Company for the year ended March 31, 2017 and the transition date opening balance sheet as at April 1, 2016 included in these standalone Ind AS financial statements, are based on the statutory financial statements prepared in accordance with the Companies (Accounting Standards) Rules, 2006 audited by the predecessor auditor whose report for the year ended March 31, 2017 and March 31, 2016 dated May 29, 2017 and May 23, 2016 respectively expressed an unmodified opinion on those standalone financial statements, and have been restated to comply with Ind AS. Adjustments made to the previously issued said financial information prepared in accordance with the Companies (Accounting Standards) Rules, 2006 to comply with Ind AS have been audited by us.

Our opinion on the Ind AS financial statements is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit referred to in the Other Matters paragraph above we report, to the extent applicable that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act.
 - e) On the basis of the written representations received from the directors of the Company as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Sonata Information Technology Limited** (“the Company”) as of March 31, 2018 in conjunction with our audit of the Ind AS (retain as applicable) financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES forming part of financial statements

Significant Accounting Policies

1. CORPORATE INFORMATION

Sonata Information Technology Limited ("SITL" or the "Company") is a Company primarily engaged in the business of providing Information Technology Solutions, software development services and re-selling products of companies such as Microsoft, IBM and Oracle etc. to its customers in India and the Asia Pacific region.

The Company registered in India with its registered office at Mumbai and operationally headquartered at Bengaluru. SITL is a wholly owned subsidiary of Sonata Software Limited. The financial statements were authorised for issuance by the Company's Board of Directors on May 22, 2018.

The principal accounting policies applied in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 BASIS OF PREPARATION & PRESENTATION OF FINANCIAL STATEMENTS

a. Statement of compliance

The financial statements have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 and Companies (India Accounting Standards) Amendment Rules, 2016 as applicable.

Upto the year ended March 31, 2017, the Company prepared and presented its financial statements in accordance with the accounting standards notified under section 133 of the Companies Act, 2013 (Indian GAAP), which includes Standards notified under the Companies (Accounting Standards) Rules, 2006.

These are the Company's first Ind AS financial statements. The Company has adopted all applicable standards and the adoption was carried out in accordance with Ind AS 101 – 'First Time Adoption of Indian Accounting Standards'. An explanation of how the transition to Ind AS has affected the reported financial position, financial performance and cash flows of the Company are provided in Note no 35 - First Time Adoption. The date of transition to Ind AS is April 1, 2016.

b. Basis of measurement

The financial statements have been prepared on a historical cost convention and on an accrual basis, except for certain financial instruments which are measured at fair value at end of the each reporting period, as explained in the accounting policies below.

c. Use of judgement, estimates and assumptions

The preparation of the financial statements in conformity with Ind AS requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities and disclosure relating to contingent liabilities as at the date of financial statement and the reported amounts of income and expenditure during the reported year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialize.

The areas involving critical estimates or judgements are:

- i. **Depreciation and amortisation:** Depreciation and amortisation is based on management estimates of the future useful lives of certain class of property, plant and equipment and intangible assets. Estimates may change due to technological developments, competition, changes in market conditions and other factors and may result in changes in the estimated useful life and in the depreciation and amortisation charges.
- ii. **Impairment testing:** Intangible assets are tested for impairment annually and when events occur or changes in circumstances indicate that the recoverable amount of the asset or cash generating units to which these pertain is less than its carrying value. The recoverable amount of cash generating units is higher of value-in-use and fair value less cost to dispose. The calculation of value in use of a cash generating unit involves use of significant estimates and assumptions which includes turnover, growth rates and net margins used to calculate projected future cash flows, risk-adjusted discount rate, future economic and market conditions.
- iii. **Employee Benefits :** The present value of the employee benefits obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) includes the discount rate, wage escalation and employee attrition. Any changes in these assumptions will impact the carrying amount of obligations. The discount rate is based on the prevailing market yields of Indian Government securities as at the Balance Sheet date for the estimated term of the obligations.
- iv. **Provision and contingencies :** Provisions and contingencies are based on the Management's best estimate of the liabilities based on the facts known at the Balance Sheet date.
- v. **Expected credit losses on financial assets:** The impairment provisions of financial assets are based on assumptions about risk of default and expected timing of collection. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, customer's creditworthiness, existing market conditions as well as forward looking estimates at the end of each reporting period.

NOTES forming part of financial statements

- vi. **Other estimates:** The preparation of financial statements involves estimates and assumptions that affect the reported amount of assets, liabilities, disclosure of contingent liabilities at the date of financial statements and the reported amount of revenues and expenses for the reporting period.

The stock compensation expense is determined based on the Company's estimate of equity instruments that will eventually vest.

Fair valuation of derivative hedging instruments designated as cash flow hedges involves significant estimates relating to the occurrence of forecast transaction.

- 2.2 **Functional and presentation currency:** The functional and presentation currency of the Company is Indian Rupee (₹). The functional currency of its Branches is as per its respective domicile currency.

2.3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Property, Plant and Equipment

On Transition : For transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as of April 1, 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Subsequent to Transition:

Recognition & Measurement: Property, Plant and Equipment are carried at cost less accumulated depreciation / amortization and impairment losses, if any. The cost of property, plant and equipment comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, other incidental expenses. Subsequent expenditure, if any, on property, plant and equipment after its purchase / completion is capitalized only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

b. Capital work-in-progress

Amounts paid towards the acquisition of property, plant and equipment outstanding as of each reporting date and the cost of property, plant and equipment not ready for intended use before such date are disclosed under capital work- in-progress.

c. Depreciation/ Amortisation

Depreciable amount for assets is the cost of asset less its estimated residual value.

Depreciation has been provided on buildings and plant and equipments on the straight line method and on furniture and fixtures, vehicles and office equipments on the written down method, as per the useful life prescribed in Schedule II of the Companies Act, 2013.

Leasehold land and leasehold improvements are amortized over primary lease period.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate. The Company assesses at each Balance Sheet date whether there is objective evidence that a asset or a group of assets is impaired. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

d. Intangible assets

On Transition - The Company has elected to continue with the carrying value of all of its intangible assets recognised as of April 1, 2016 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Subsequent to Transition:

Recognition & Measurement: Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and impairment losses, if any.

Amortization is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each reporting period.

Computer software is amortized over a period of three years.

An intangible asset is derecognized on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in Statement of Profit and Loss when the asset is derecognized.

e. Financial Instruments

Financial assets : The Company classifies its financial assets in the following categories:

NOTES forming part of financial statements

- i. **Financial assets at amortised cost** - Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost.

They are presented as current assets, except for those maturing later than 12 months after the reporting date which are presented as non-current assets. Financial assets are measured initially at fair value which usually represents cost plus transaction costs and subsequently carried at amortised cost using the effective interest method, less any impairment loss if any.

Financial assets at amortised cost are represented by trade receivables, security and other deposits, cash and cash equivalent, employee and other advances.
- ii. **Equity investments** - Investment in subsidiaries are stated at cost less impairment loss if any.
- iii. **Financial Assets at Fair Value through Other Comprehensive Income (FVTOCI)** - For assets, if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and where the company has exercised the option to classify the equity investment as at FVTOCI, all fair value changes on the investment are recognised in OCI. The accumulated gains or losses on such investments are not recycled to the Statement of Profit and Loss even on sale of such investment.
- iv. **Financial assets at Fair Value through Profit and loss (FVTPL)** - Financial assets which is not classified in any of the above category is measured at FVTPL. These include surplus funds invested in mutual funds etc.

Financial liabilities

Initial recognition and measurement - Financial liabilities are measured at amortised cost using effective interest method. For trade and other payable maturing within one year from the Balance Sheet date, the carrying value approximates fair value due to short maturity.

Derivative financial instruments and hedging activities

A derivative is a financial instrument which changes value in response to changes in an underlying asset and is settled at a future date. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. The method of recognizing the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

The Company enters into derivative contracts to hedge the risks asserted with currency fluctuations relating to firm commitments and highly probable transactions. The Company does not use derivative instruments for speculative purposes.

The Company documents, at the inception of the transaction, the relationship between hedging instruments and hedged items, as well as its risk management objectives and strategy for undertaking various hedging transactions. The Company also documents its assessment, both at hedge inception and on an on-going basis, of whether the derivatives that are used in hedging transactions are effective in offsetting changes in cash flows of hedged items.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in Other Comprehensive Income. The ineffective portion of changes in the fair value of the derivative is recognised in the Statement of Profit and Loss.

Amounts accumulated in hedging reserve are reclassified to the Statement of Profit and Loss in the periods when the hedged item affects the Statement of Profit and Loss.

The full fair value of a hedging derivative is classified as a current/ non-current, asset or liability based on the remaining maturity of the hedged item.

When a hedging instrument expires, swapped or unwound, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in Statement of Changes in Equity is recognised in the Statement of Profit and Loss.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Balance Sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

Fair value measurement

The Company classifies the fair value of its financial instruments in the following hierarchy, based on the inputs used in their valuation:

- i) Level 1 - The fair value of financial instruments quoted in active markets is based on their quoted closing price at the Balance Sheet date.
- ii) Level 2 - The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques using observable market data. Such valuation techniques include discounted cash flows, standard valuation models based on market parameters for interest rates, yield curves or foreign exchange rates, dealer quotes for similar instruments and use of comparable arm's length transactions
- iii) Level 3 - The fair value of financial instruments that are measured on the basis of entity specific valuations using inputs that are not based on observable market data (unobservable inputs). When the fair value of unquoted instruments cannot be measured with sufficient reliability, the Company carries such instruments at cost less impairment, if applicable.

NOTES forming part of financial statements

f. Employee Benefits

Employee benefits include provident fund, employee state insurance scheme, gratuity fund, superannuation fund and compensated absences.

Provident Fund: Employees receive benefits from a provident fund, which is a defined benefit plan. The employer and employees each make periodic contributions to the plan. A portion of the contribution is made to the approved provident fund trust managed by the Trustees of Sonata Software Limited Provident Fund while the remainder of the contribution is made to the government administered pension fund. The contributions to the trust managed by the Company is accounted for as a defined contribution plan as the Company is liable for any shortfall in the fund assets based on the government specified minimum rates of return.

Gratuity: The Company provides for Gratuity, a defined benefit plan covering the eligible employees. The Gratuity plan provides a lump-sum payment to vested employees at retirement, death or termination of employment, of an amount based on the respective employee's salary and tenure of the employment with the Company.

Liabilities with regard to the Gratuity plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using projected unit method. The Company fully contributes all ascertained liabilities to the trust managed by the Trustees of Sonata Software Limited Gratuity Fund. The Trustees administers the contributions made to the Trust. The fund's investments are managed by certain insurance companies as per the mandate provided to them by the trustees and the asset allocation is within the permissible limits prescribed in the insurance regulations.

Actuarial gains and losses are recognised in the Other comprehensive income in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the schemes.

Superannuation Fund: Certain employees of the Company are participants in a defined contribution plan of superannuation. The Company has no further obligations to the plan beyond its monthly contributions which are periodically contributed to the Sonata Software Limited Superannuation Fund Trust, the corpus of which is invested with the Life Insurance Company.

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under :

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

Long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date less the fair value of the plan assets out of which the obligations are expected to be settled. Long Service Awards are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date.

g. Provisions

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are determined by discounting the expected future cashflows at pre-tax rate that reflects the current market assessments of the time value of the money and the risks specific to the liability. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

h. Income Taxes

Income tax comprises current and deferred tax. Income tax expense is recognized in the Statement of Profit and Loss except to the extent it relates to items directly recognized in equity or in other comprehensive income.

- a) **Current income tax** - Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted by the reporting date and applicable for the period. The Company off sets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis or to realize the asset and liability simultaneously.
- b) **Deferred tax** - Deferred income tax is recognized using the Balance Sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and

NOTES forming part of financial statements

liabilities and their carrying amount in financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction.

Deferred income tax asset is recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. Deferred income tax liabilities are recognized for all taxable temporary differences.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as a deferred tax asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

i. Leases

Leases under which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. When acquired, such assets are capitalized at fair value or present value of the minimum lease payments at the inception of the lease, whichever is lower. Lease payments under operating leases are recognised as an expense on a straight line basis in the Statement of Profit and Loss over the lease term except where the lease payments are structured to increase in line with expected general inflation.

j. Cash flow Statement:

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipt or payments and item of income or expense associated with investing or financing cash-flows. The cash flow from operating, investing and financing activities of the Company are segregated.

k. Revenue Recognition

The Company derives revenue primarily from Information Technology Services and Solutions. The Company recognizes revenue when the significant terms of the arrangement are enforceable, services have been delivered and the collectability is reasonably assured. The method for recognizing revenues and costs depends on the nature of the services rendered:

a) Time and materials contracts

Revenues from contracts priced on a time and material basis are recognised when services are rendered and related costs are incurred.

b) Fixed-price contracts

Revenues from fixed price contracts are recognised over the life of the contract using percentage of completion method, with contract costs determining the stage of completion at the end of the reporting period. Foreseeable losses on such contracts are recognised when probable.

c) Hardware/software products and licenses

Revenues from sale of hardware/software products and licenses are recognised on transfer of significant risks and rewards of ownership to the buyers, which generally coincides with delivery where there is no customisation required. In case of customisation the same is recognised over the life of the contract using the proportionate completion method, with contract costs determining the degree of completion. Foreseeable losses on such contracts are recognised when probable.

d) Maintenance Contracts

Revenue from maintenance contracts is recognized ratably over the period of the contract using the "percentage-of-completion" method. When services are performed through an indefinite number of repetitive acts over a specified period of time, revenue is recognized on a straight line basis over the specified period or under some other method that better represents the stage of completion.

Revenues are reported net of GST and applicable discounts and allowances.

l. Borrowing Costs:

Borrowing costs consist of interest, ancillary and other costs that the Company incurs in connection with the borrowing of funds and interest relating to other financial liabilities. Borrowing costs also include exchange differences to the extent regarded as an adjustment to the borrowing costs.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur.

NOTES forming part of financial statements

m. Foreign Currency transactions and translations

Transactions in foreign currency are translated into the respective functional currencies using the exchange rates prevailing at the dates of the respective transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the exchange rates prevailing at reporting date of monetary assets and liabilities denominated in foreign currencies are recognized in the Statement of Profit and Loss and reported within foreign exchange gains/ (losses).

Non-monetary assets and liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Foreign currency gains and losses are reported on a net basis.

n. Finance Income and expense

Finance income consists of interest income on funds invested, dividend income and fair value gains on the disposal of FVTPL financial assets. Interest income is recognized as it accrues in the Statement of Profit and Loss, using the effective interest method.

Dividend income is recognized in the Statement of Profit and Loss on the date that the Company's right to receive payment is established.

Finance expenses consist of interest expense on loans and borrowings. Borrowing costs are recognized in the Statement of Profit and Loss using the effective interest method.

o. Share based payments

Employees of the Company receive remuneration in the form of cash settled share based transaction, for rendering services over a defined vesting period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. The equity instruments are granted by the Employee Welfare Trust.

The expense is recognized in the Statement of Profit and Loss with a corresponding increase to the share based payment reserve, a component of equity.

The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortization).

The fair value of the amount payable to the employees in respect of Stock Appreciation Rights (SAR), which are settled in cash, is recognized as an expense with a corresponding increase in liabilities, over the period during which the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date based on the fair value of the SAR plan. Any changes in the liability are recognized in Statement of Profit and Loss.

p. Impairment

a) Financial assets : In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss.

The Company assesses at each Balance Sheet date whether a financial asset or a group of financial assets is impaired. The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivable. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Company recognizes lifetime expected credit losses for all trade receivables and/or other contract assets that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

ECL allowance (or reversal) is recognised as income / expenditure in the Statment of Profit and Loss.

b) Non-financial assets

The Company assesses at each reporting date whether there is any objective evidence that a non financial asset or a group of non financial assets is impaired. If any such indication exists, the Company estimates the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognised in profit or loss and reflected in an allowance account. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through profit or loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

q. Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. For the purpose of computing diluted earnings per share, profit / (loss) after tax and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

NOTES forming part of financial statements

r. Contingent Liabilities

Contingent liabilities exist when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required or the amount cannot be reliably estimated. Contingent liabilities are appropriately disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

s. Contingent Assets

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The Company does not recognize a contingent asset.

t. Research & development expenses

Research expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are also charged to the Statement of Profit and Loss unless a product's technical feasibility has been established, in which case such expenditure is capitalized. The amount capitalized comprises expenditure that can be directly attributed or allocated on a reasonable and consistent basis to creating, producing and making the asset ready for its intended use.

u. Events after the reporting period

Adjusting events are events that provide further evidence of conditions that existed at the end of the reporting period. The financial statements are adjusted for such events before authorisation for issue.

Non-adjusting events are events that are indicative of conditions that arose after the end of the reporting period. Non-adjusting events after the reporting date are not accounted, but disclosed.

v. First-time adoption – mandatory exceptions, optional exemptions

The Standalone financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended, read with relevant rules issued thereunder in terms of the SEBI LODR, as modified by Circular No CIR/CFD/FAC/62/2016 dated July 5, 2016.

For periods up to and including the year ended March 31, 2017, the Company prepared its financial statements in accordance with the then applicable Accounting Standards in India ('previous GAAP'). The adoption of Ind AS was carried out in accordance with Ind AS 101, considering April 01, 2016 as the transition date. Pursuant to adoption of Ind AS, the differences in the carrying amounts of assets and liabilities on the transition date under the previous GAAP and the balances on adoption of Ind AS have been recognised directly in equity. The financial statements for the year ended March 31, 2018, March 31, 2017 and as at 1 April 2016 have been presented under Ind AS for comparative purposes. Accounting policies have been applied consistently to all periods presented in these Standalone Financial Results.

In preparing the opening Ind AS statement of financial position, adjustments are carried out to the amounts reported in financial statements prepared in accordance with previous GAAP. An explanation of how the transition from previous GAAP to Ind AS has affected our financial performance, cash flows and financial position is set out in Note No 35.

w. New standards and interpretations not yet adopted

Appendix B to Ind AS 21, Foreign currency transactions and advance consideration: On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. The amendment will come into force from April 1, 2018. The Company is evaluating the effect of this on the financial statements.

Ind AS 115- Revenue from Contract with Customers: On March 28, 2018, the Ministry of Corporate Affairs notified Ind AS 115 Revenue from Contracts with Customers. The standard replaces AS 11 Construction Contracts and AS 18 Revenue.

The new standard applies to contracts with customers. The core principle of the new standard is that an entity should recognize revenue to depict transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further, the new standard requires enhanced disclosures about the nature, timing and uncertainty of revenues and cash flows arising from the entity's contracts with customers. The new standard offers a range of transition options. An entity can choose to apply the new standard to its historical transactions and retrospectively adjust each comparative period. Alternatively, an entity can recognize the cumulative effect of applying the new standard at the date of initial application - and make no adjustments to its comparative information. The chosen transition option can have a significant effect on revenue trends in the financial statements. A change in the timing of revenue recognition may require a corresponding change in the timing of recognition of related costs. The standard is effective for annual periods beginning on or after April 1, 2018. The Company is currently evaluating the requirements of Ind AS 115, and has not yet determined the impact on the financial statements.

	As at March 31, 2018	As at March 31, 2017
a) Disputed demand of Karnataka Sales Tax	3	3
b) Disputed demand of Service tax		
The demand for payment of service tax on repair services relating to software is based on board circular of the department issued with retrospective effect. The Company had filed appeal before Customs, Excise and Service Tax Appellate Tribunal (CESTAT) and had got stay on recovery until disposal of appeal. During the year, the Company has received a favourable order from CESTAT.	-	214
c) Other claims against the Company not acknowledged as debt	65	65
d) Disputed demands of Income-tax	33,220	34,492

Details of disputed demands of Income-tax primarily relates to:

(₹ in lakhs)

(i) Disallowance of Inter-Company service charges and costs for deputation of personnel.

Sonata Software Limited, the holding company charges the Company for certain support services rendered and for the cost of project personnel deputed. These support services and costs for deputation are being disallowed by the Income-tax department while computing taxable profits of the Company. The Company has challenged these disallowances and consequent demands at appellate levels and is confident of a favorable outcome.

Details of demands and forums where they are pending are:

- ₹ 5,014 (As at March 31, 2017 - ₹ 4,030) for the financial years 2001-02, 2003-04 to 2008-09. The Company has received favorable orders from the Income-tax Appellate Tribunal (ITAT). The Income-tax department has preferred an appeal to the Honorable High Court of Mumbai.
- ₹ 447 (As at March 31, 2017 - ₹ 447) for the financial year 2002-03. The Income-tax department's appeal to the Honorable High Court of Mumbai was time barred and hence dismissed. The Income-tax department had preferred a Special Leave Petition on the said dismissal to the Honorable Supreme Court of India which had referred the petition back to the Honorable High Court of Mumbai to reconsider its decision. The Honorable High Court of Mumbai admitted the appeal.
- Nil (As at March 31, 2017 - ₹ 1,119) for the financial year 2010-11. The Company has received favorable order from ITAT. The Income-tax department has preferred an appeal to the Honorable High Court of Mumbai.
- Nil (As at March 31, 2017 - ₹ 2,943) for the financial years 2012-13 and 2013-14. The Company has received favorable order from Commissioner of Income-tax (Appeals) (CIT(A)).
- ₹ 1,919 (As at March 31, 2017 - Nil) for financial year 2011-12, the Company has filed appeal before ITAT and for financial year 2014-15, the Company has filed appeal before CIT (A).

(ii) Withholding tax demand

The Company is engaged in the business of buying and selling packaged software in India. The Income Tax department has been contending that amounts paid by the Company for buying the software products is in the nature of 'Royalty' and hence had to withhold Income-tax on the same as per the Income-tax Act, 1961, and had raised demands of ₹ 2,182 (As at March 31, 2017 - ₹ 2,182) for the financial years 2000-01 and 2001-02. The Company's contention has been that the payments were made for purchase of 'Goods' and hence was under no obligation to withhold Income-tax on the same. The Company had received favorable orders from the Income-tax Appellate Tribunal which were reversed by the Honorable High Court of Karnataka. The Company had preferred a Special Leave Petition on the said order to the Honorable Supreme Court of India, which had been admitted. However, for these years one of the principal suppliers of software to the Company had paid taxes of ₹ 1,286 out of the above demand. The amount included as disputed demand is excluding the amount paid by the supplier.

(iii) Disallowance of payments made for purchase of software on which Income-tax was not withheld

Payment in the nature of Royalty on which Income-tax have not been deducted at source are subject to disallowance as an 'expense' as per Sections 40(a)(i) and 40(a)(ia) while computing taxable profits of the Company. Consequent to issue described in (ii) above, the Income-tax department, holding payments for purchase of software as "Royalty" disallowed the same while computing taxable profits of the Company.

NOTES forming part of financial statements

The Honorable High Court of Karnataka had given an unfavorable decision on the issue covered in (ii) above. However, the said demands which are consequential and penal in nature do not arise automatically and there are multiple legal precedents in favor of the Company. Based on legal opinions and feedback from its legal counsels, the Company is confident of a favorable outcome on these consequential demands.

Details of demands raised and the forum where these are pending are:

- i. ₹ 23,644 (As at March 31, 2017 - ₹ 23,644) of tax demand for the financial years 2001-02, 2002-03, 2006-07 and 2007-08. The Company had received a favorable order from ITAT. The Income-tax department had preferred an appeal to the Honorable High Court of Mumbai.
 - ii. ₹ 14 (As at March 31, 2017 - ₹ 127) for the financial years 2012-13 to 2014-15 the Company has filed an appeal before the CIT (A).
- e) In addition, the Company in the ordinary course of business receives various claims from its customers and other business partners. Based on review of such matters and the information available at this time, the Company does not anticipate that any of these will result in a settlement that will have a material impact on its financial statements.

The management assessed that fair value of cash and short-term deposits, trade receivables, trade payables, inter corporate deposits and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

1. Long-term fixed-rate receivables/borrowings are evaluated by the Company based on parameters such as interest rates, specific country risk factors, individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected losses of these receivables.
2. The fair value of the quoted mutual funds are based on price quotations at reporting date. The fair value of loans from banks and other financial liabilities, as well as other non-current financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities.
3. The Company enters into derivative financial instruments with Banks. Foreign exchange forward contracts are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include forward pricing model, using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, currency basis spreads between the respective currencies, interest rate curves etc. As at March 31, 2018, the marked-to-market value of derivative asset positions is net of a credit valuation adjustment attributable to derivative counterparty default risk. The changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationship and other financial instruments recognised at fair value.

Fair value hierarchy

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Derivative financial instruments

The Company is exposed to foreign currency fluctuations on foreign currency assets/ liabilities and forecasted cash flows denominated in foreign currency. The Company uses derivatives to hedge foreign currency assets/ liabilities and foreign currency forecasted cash flows. The counter party in these derivative instruments is a bank and the Company considers the risks of non-performance by the counterparty as non-material.

26. Financial risk management

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk, foreign currency risk and interest rate risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange related risk exposures. All derivative activities for risk management purposes are carried out by specialist teams that have the appropriate skills, experience and supervision. It is the Company's policy that no trading in derivative for speculative purposes may be undertaken.

The Board of Directors reviews and agrees policies for managing each of these risks, which are summarized below:

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investment securities. Credit risk arises from cash held with banks and financial institutions, as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. The Company has taken an Insurance cover on trade receivables.

The following table gives details in respect of revenues generated from top customer and top 5 customers:

Particulars	(₹ in lakhs)	
	For the year ended March 31, 2018	For the year ended March 31, 2017
Revenue from top customer	45,125	45,309
Revenue from top 5 customers	69,436	70,424

One customer accounted for more than 10% of the revenue for the year ended March 31, 2018, however none of the customers accounted for more than 10% of the receivables for the year ended March 31, 2018. One customer accounted for more than 10% of the revenue for the year ended March 31, 2017, however none of the customers accounted for more than 10% of the receivables for the year ended March 31, 2017.

Investments

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Company does not expect any losses from non-performance by these counterparties, and does not have any significant concentration of exposures to specific industry sectors.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due. Also, the Company has unutilized credit limits with banks.

The Company's corporate treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management.

Foreign Currency risk

The Company's exchange risk arises from its foreign operations, foreign currency revenues and expenses, (primarily in U.S. dollars). As a result, if the value of the Indian rupee appreciates relative to this foreign currency, the Company's revenues measured in rupees may decrease. The exchange rate between the Indian rupee and this foreign currency has changed substantially in recent periods and may continue to fluctuate substantially in the future. The Company reviews on a periodic basis to formulate the strategy for foreign currency risk management.

Consequently, the Company uses derivative financial instruments, such as foreign exchange forward contracts, to mitigate the risk of changes in foreign currency exchange rates in respect of its forecasted cash flows and trade receivables.

The details in respect of the outstanding foreign exchange forward contracts are given under the derivative financial instruments section.

In respect of the Company's forward contracts, a 1% decrease/ increase in the respective exchange rates of each of the currencies underlying such contracts would have resulted in:

- an approximately ₹ 90 lakhs increase and decrease in the Company's net profit as at March 31, 2018;
- an approximately ₹ 3 lakhs increase and decrease in the Company's net profit as at March 31, 2017.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates and investments. The Company's borrowings and investments are primarily short-term, which do not expose it to significant interest rate risk.

27. Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Company monitors the return on capital as well as the level of dividends on its equity shares. The Company's objective when managing capital is to maintain an optimal structure so as to maximize shareholder value.

The capital structure of the Company consists of net debt (borrowings offset by cash and bank balances) and total equity.

NOTES forming part of financial statements

The capital structure is as follows:

(₹ in Lakhs)

28. Employee benefit plans

i) Defined contribution plans

a) Provident fund

The Company makes contributions towards Provident Fund under a defined contribution plan for qualifying employees. The Provident Fund is administered by the Trustees of Sonata Software Limited Provident Fund and by the Regional Provident Fund Commissioner. Under this scheme, the Company is required to contribute a specified percentage of payroll cost to fund the benefits.

The Rules of the Company's Provident Fund administered by the Trust require that if the Board of Trustees are unable to pay interest at the rate declared for Employees' Provident Fund by the Government under para 60 of the Employees' Provident Fund Scheme, 1952 for the reason that the return on investment is less or for any other reason, then the deficiency shall be made good by the Company. Having regard to the assets of the Fund and the return on the investments, the Company does not expect any deficiency in the foreseeable future. There has also been no such deficiency since the inception of the Fund.

Provident fund contributions amounting to ₹ 64 lakhs (for the year ended March 31, 2017 ₹ 51 lakhs) has been charged to the Statement of Profit and Loss (as part of Contribution to Provident Fund and other Funds in Note 19 Employee benefits expense).

35. Transition to Ind AS

The Company's financial statements for the year ended March 31, 2018 are prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015. The adoption of Ind AS was carried out in accordance with Ind AS 101, using April 1, 2016 as the transition date. Ind AS 101 requires that all Ind AS standards and interpretations that are effective for the Ind AS financial statements for the year ended March 31, 2018, be applied consistently and retrospectively for all fiscal years presented. All applicable Ind AS have been applied consistently and retrospectively wherever required. The resulting difference between the carrying amounts of the assets and liabilities in the financial statements under both Ind AS and Indian GAAP as at the transition date have been recognized directly in equity at the transition date.

In preparing these financial statements, the Company has availed itself of certain exemptions and exceptions in accordance with Ind AS 101 as explained below:

(i) Exceptions from full retrospective application

Estimates exception: Upon an assessment of the estimates made under Indian GAAP, the Company has concluded that there was no necessity to revise such estimates under Ind AS, except where estimates were required by Ind AS and not required by Indian GAAP.

(ii) Exemptions from retrospective application:

Share-based payment exemption: The Company has availed exemption available under Ind AS 101 on application of Ind AS 102, "Share Based Payment", to equity instruments that vested before the date of transition to Ind AS.

Notes

i. Security deposits:

Under previous GAAP, Lease security deposits (that are refundable in cash on completion of the lease term) are recorded at their transaction value. Under Ind AS, the difference between the Fair value and transaction value of the security deposits has been recognised as prepaid rent. The lease rentals paid in advance are charged to the Statement of Profit and Loss over the lease term.

ii. Hedge Accounting/Forward contracts:

Under Ind AS the effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in Other Comprehensive Income. The ineffective portion of changes in the fair value of the derivative is recognised in the Statement of Profit and Loss. Under previous GAAP, the gain or loss on the hedging instrument that is determined to be an effective hedge was recognized directly in the appropriate equity account.

iii. Remeasurement of Defined benefit obligations:

Under previous GAAP, actuarial gains and losses were recognised in the Statement of Profit and Loss. Under Ind AS, the actuarial gains and losses form part of remeasurement of the net defined benefit liability/ asset which is recognised in Other Comprehensive Income. Consequently, the tax effect of the same has also been recognised in Other Comprehensive Income under Ind AS instead of the Statement of Profit and Loss.

ANNEXURE I TO THE NOTICE

STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

ITEM NO.4: Special Resolution

The Non-Executive Directors and the Independent Directors of your Company bring with them significant professional expertise and rich experience across a wide spectrum of functional areas such as marketing, technology, corporate strategy, information systems, and finance. The Board is of the view that it is necessary that adequate compensation be given to the Non-Executive Directors and the Independent Directors so as to compensate them for their time and efforts.

The Shareholders of your Company, at the Annual General Meeting held on 6th August, 2013, accorded their consent for payment of commission to Non-executive Directors at 1% of the net profits of the Company for a period of five years commencing from 1st April, 2008. Since the above approval was upto 31st March, 2018, a new resolution has been placed for approval of the members.

All the Non-executive and Independent Directors of the Company are concerned or interested financially in the Resolution as it relates to payment of commission to self. No other Director or Key Managerial Personnel of the Company or their relatives are in anyway concerned or interested in this Resolution.

The Board of Directors recommend the Special Resolution as set out in Item No. 4 to the Notice for approval by the members of the Company.

ITEM NO.5: Ordinary Resolution

As per the provisions of Section 20 of the Companies Act, 2013, a document may be served on any member by sending it to him by post or by registered post or by speed post or by courier or by delivery at his office or residence address or by such electronic or other mode as may be prescribed. Further, proviso to sub-section (2) of Section 20 states that a member may request for delivery of any document through a particular mode, for which he shall pay such fees in advance as may be determined by the Company in its Annual General Meeting. Accordingly, the Board of Directors in its meeting held on May 22, 2018 has proposed that a sum equivalent to the estimated actual expenses of delivery of the documents through a particular mode, if any, request has been made by any member for delivery of such documents to him through such mode of service, be taken to cover the cost of such delivery.

This Explanatory Statement may also be read and treated as disclosure in compliance with the requirements of Secretarial Standard-2 and SEBI (LODR) Regulations, 2015.

None of the Directors or Key Managerial Personnel of the Company or their relatives are in anyway concerned or interested in this Resolution.

The Board of Directors recommend the Ordinary Resolution as set out at Item No. 5 to the Notice for approval by the members of the Company.

ITEM NO.6: Ordinary Resolution

The Company had received applications from the person/entities (as set out below) pursuant to Regulation 31A of the Listing

Regulations for classifying them under the Public Category since their names have been included as a part of the Promoter and Promoter group.

Sr. No.	Name	No. of Equity Shares	Percentage

	Total	29,26,711	2.79%

Vide their letters dated 22nd June, 2018 and 23rd June, 2018, the Promoter and Promoter Group have requested the Company for:

- declassification of the applicants (as mentioned in the table above) from the Promoter and Promoter Group; and
- reclassification of the applicants shareholding (as mentioned in the table above) in Public Category.

Over the past few years the said applicants have gradually reduced their shareholding. The current shareholding of the above-mentioned Promoters alongwith the Person acting in concert is not more than 5%.

Further, in accordance with the requirements of Regulation 31A(5) of the Listing Regulations, the above-mentioned Promoters do not, directly or indirectly, exercise control, over the affairs of the Company, do not have any special rights in the Company through formal or informal arrangements. Neither they nor their relatives shall act as Key Managerial Personnel of the Company.

The Company would make necessary application to National Stock Exchange of India Ltd. and BSE Limited to seek their approval for reclassifying the Promoter / Promoter Group to Public Category, as required.

Except Mr. Shyam Bhupatirai Ghia none of the other Directors, Key Managerial Personnel or their relatives are in anyway concerned or interested in passing of this resolution.

The Board of Directors recommend the Ordinary Resolution as set out at Item No. 6 to the Notice for approval by the members of the Company.

The relevant documents in this regard are available for inspection in physical and/or electronic form, between 10:00 A.M. to 5:00 P.M. on all working days i.e., Monday to Friday, till 10th August, 2018, at the Registered Office of the Company and copies thereof will also be made available for inspection in physical or electronic form at the Corporate Office of the Company.

ANNEXURE II TO THE NOTICE

Instructions and other information relating to remote e-voting

In compliance with the provisions of Section 108 of the Companies Act, 2013, read with Rule 20 of the Companies (Management and Administration) Rules, 2014, as amended and the provisions of Regulation 44 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Members are provided with the facility to cast their vote electronically, through the e-voting services provided by Karvy Computer share Private Limited (Karvy) on all resolutions set forth in this Notice, from a place other than the venue of the Meeting (Remote e-voting).

The Company has appointed Mr. Parameshwar Bhat, Practicing Company Secretary (COP: 11004) as the Scrutinizer for conducting the e-voting process in a fair and transparent manner. E-voting is optional. The e-voting rights of the shareholders/beneficiary owners shall be reckoned on the equity shares held by them as on Monday, the 6th August, 2018 being the Cut-off date for the purpose. Shareholders of the Company holding shares either in physical or in dematerialized form, as on the Cut-off date, may cast their vote electronically.

The instructions for E-Voting are as under:

1. A. In case a Member receives an email from Karvy [for Members whose email IDs are registered with the Company/Depository Participant (s)]:

- a) Launch internet browser by typing the URL: <https://evoting.karvy.com>
- b) Enter the login credentials (i.e. User ID and password mentioned in the email). In case of physical folio, User ID will be EVEN (E-Voting Event Number) followed by folio number. In case of Demat account, User ID will be your DP ID and Client ID. However, if you are already registered with Karvy for e-voting, you can use your existing User ID and password for casting your vote.
- c) After entering these details appropriately, click on "LOGIN".
- d) If you are logging in for the first time, you will now reach password change Menu wherein you are required to mandatorily change your password. The new password shall comprise of minimum 8 characters with at least one upper case (A- Z), one lower case (a-z), one numeric value (0-9) and a special character (@, #, \$, etc.). The system will prompt you to change your password and update your contact details like mobile number, email ID etc. on first login. You may also enter a secret question and answer of your choice to retrieve your password in case you forget it. It is strongly recommended that you do not share your password with any other person and that you take utmost care to keep your password confidential.
- e) You need to login again with the new credentials.
- f) On successful login, the system will prompt you to select the e-voting Event Number for Sonata Software Limited.
- g) On the voting page enter the number of shares (which represents the number of votes) as on the Cut-off Date under "FOR/AGAINST" or alternatively, you may partially enter any number in "FOR" and partially "AGAINST" but the total number in "FOR/AGAINST"

taken together shall not exceed your total shareholding as mentioned herein above. You may also choose the option ABSTAIN. If the Member does not indicate either "FOR" or "AGAINST" it will be treated as "ABSTAIN" and the shares held will not be counted under either head.

- h) Members holding shares under multiple folios/demat accounts shall choose the voting process separately for each folio/demat accounts.
- i) Voting has to be done for each item of the Notice separately. In case you do not desire to cast your vote on any specific item, it will be treated as abstained.
- j) You may then cast your vote by selecting an appropriate option and click on "Submit".
- k) A confirmation box will be displayed. Click "OK" to confirm else "CANCEL" to modify. Once you confirm, you will not be allowed to modify your vote. During the voting period, Members can login any number of times till they have voted on the Resolution(s).
- l) Corporate/Institutional Members (i.e. other than Individuals, HUF, NRI etc.) are also required to send scanned certified true copy (PDF Format) of the Board Resolution/Authority Letter etc., together with attested specimen signature(s) of the duly authorised representative(s), to the Scrutinizer at email:parameshwar@vjkt.in. The scanned image of the above mentioned documents should be in the naming format "Corporate Name_Event No."

B. In case of Members receiving physical copy of Notice [for Members whose email IDs are not registered with the Company/Depository Participant (s)]:

- a) Launch internet browser by typing the URL: <https://evoting.karvy.com>.
- b) Enter the login credentials (i.e. User ID and password mentioned in the electronic voting form)
- c) Please follow all steps from Sl. No. (c) to (l) above to cast your vote by electronic means.
2. The Portal will remain open for voting from: 09.00 a.m. (IST) on Friday, 10th August, 2018 up to 5.00 p.m. (IST) on Sunday, 12th August, 2018.
3. In case of any queries, you may refer the Frequently Asked Questions (FAQs) for shareholders and e-voting User Manual for shareholders available at the download section of <https://evoting.karvy.com> or contact Mr. Anandan K of Karvy Computershare Pvt Ltd at 040-6716 1591 or at 1800 345 4001 (toll free).
4. You can also update your mobile number and e-mail id in the user profile details of the folio which may be used for sending future communication(s).
5. In case a person has become a Member of the Company after dispatch of AGM Notice but on or before the cut-off date for E-voting i.e., 6th August, 2018, he/she may obtain the User ID and Password in the manner as mentioned below :
