

**Grow Your Distribution Business
with Future Ready Solutions**

SAP Hybris (v)

SONATA SOFTWARE

DEPTH MAKES A DIFFERENCE

Distribution is witnessing significant challenges in meeting customer expectations. It is no longer enough to provide a functional online purchasing facility. Customers now have considerable experience of extraordinary B2C examples and have an expectation that B2B solutions will to be equally engaging and easy to use. Distributors are also facing challenges in co-ordinating multiple systems for various business channels. Therefore, seamless customer experience with easy integration across all channels has become the need of the day for the distributors and CPG companies. They need to capitalize on the right technology to attract and retain customers and grow revenue. There is a necessity for a future ready technology that would address all these distinct challenges faced by distribution and provide seamless experience for its users.

Distributors and CPG challenges:

Catalogue Management

- Demand Projection /Sales forecast
- Leverage Private Labels
- Product Replacement /Promotions

Co-ordination with Suppliers and Customers

- Seamless Integrations

Manage Fulfilment

- Controlling Warehouse Network
- Transportation Management

Visibility to Control Inventory and Costs

- Single view of Inventory
- Reduce Safety Stock Levels

Growth with Improved Customer Service

- Seamless Customer Experience
- Customer Acquisition/Retention
- Contact Customer Live

Sonata Software helps distributors enhance their customer base by providing personalized and consistent shopping experiences across all channels.

Business Benefits

Improved market share

Easy integration to ERP and third-party tools

Improved loyalty customer retention through personalized treatment

Single view of the customer and business

Reduced shopping cart abandonment

Service Oriented Architecture (SOA)

Faster time to market

Experience

Single Source of Truth

Centralization of all data points for an Australian based B2B supplies distributor.

Benefits: Reduced inconsistency with effective utilization of hybris features. Centralized multi-region and multi-language platform

Migration to hybris for Better Customer Experience

Rollout of a B2B e-Commerce platform for a European sports equipment company from their existing SAP platform to hybris, integrating with their SAP back-end, with more enriched features at par with their B2C platform.

Benefits: Single tool for client distributors and organisations for improving the user experience and customer loyalty.

Consistent and Consolidated Platform

Transformed one of Europe's largest tour operators from disparate e-Commerce and brick-and-mortar retail platforms into a consolidated and consistent platform.

Benefits: Enabled browse, search, book, and service capabilities across channels.

Maximizing the Use of hybris Accelerator Functionality

Upgrade for the largest home linen's specialist in Australia with Omni-Channel operators providing customers both with a visual journey via their 50 stores around the country, as well as a convenient Online and mobile store.

Benefits: Upgrade with agile methodology in order to ensure maximum flexibility when managing priorities and speed up implementation process that is within the customer's budget.

Automated Testing for hybris Implementation

Executed automation testing for a retailer in the ANZ region through Sonata RAPID platform.

Benefits: More than 70% automation using the Global Delivery model. Benchmarked Performance for better comparison
