Agile supply chain for consumer goods and manufacturing

From Sonata Software, the Platform™ Company
As manufacturers and distributors strive to improve operational efficiency, supply chain agility is increasingly becoming a critical success factor. Faced with rapidly evolving end-user demands and the emergence of complex business models, distributors are often challenged to relook at all the dimensions of their business.

At Sonata, we believe that platform-oriented approaches and digital technologies will provide distributors the desired agility in the supply chain. With Sonata’s offerings, manufacturers and distributors can now establish an adaptive distribution network that can withstand the changing market dynamics and new distribution models.
