Simplify Your **VMware** to **Azure Migration** with **Sonata's Expert Solution**

Effortless transition enabling stability, consistency, and cost savings

Are you feeling uncertain about the future of your VMware infrastructure? The recent changes in the virtualization landscape, including licensing models, platform availability, disappearing of free versions and evolving support models may leave you wondering what's next for your VMware infrastructure. These changes may leave you questioning the stability of your virtualization strategy and the potential impact on your IT budget.

If you're looking for a smoother path forward, Sonata can help you navigate these challenges and find a solution that ensures your business continuity and growth. We can seamlessly transition your infrastructure from **VMware to Microsoft Azure,** ensuring stability, consistency, and significant cost reductions.

How **Sonata Can Help**
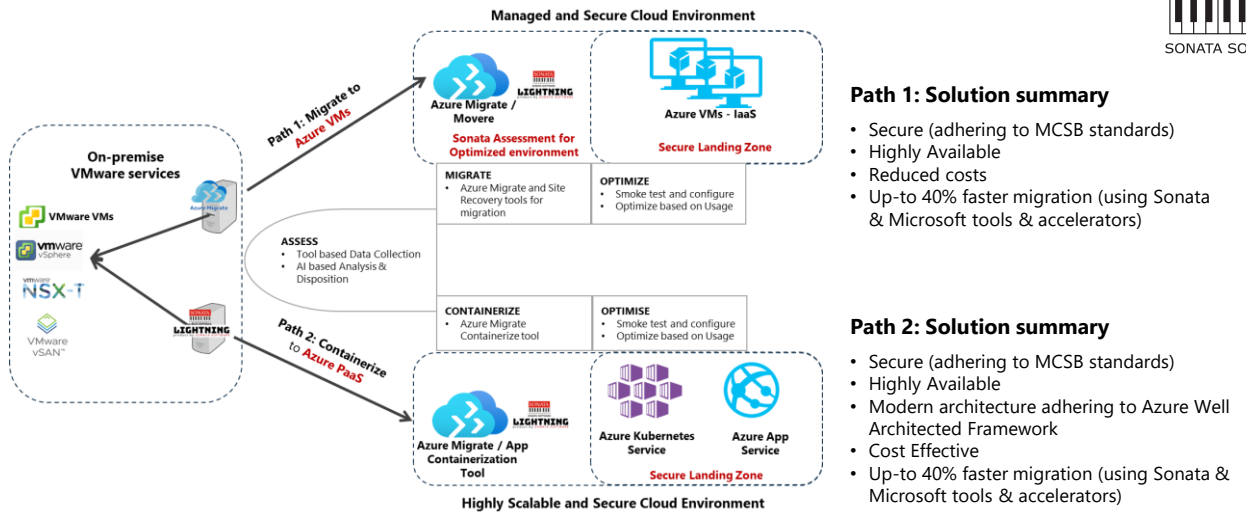

Assessment In a Box: VMware Migration to Azure

A comprehensive assessment of your on-premises VMware environment to help you plan and estimate the costs associated with migrating your workloads to Azure. It includes tools and processes to:

- Analyze your current VMware infrastructure (VMs, storage, networking).
- Identify workloads suitable for migration to Azure.
- Estimate migration costs and resource requirements on Azure.
- Generate a migration plan with timelines and steps.

Pilot Migration in a Box: VMware Migration to Azure

This solution builds upon the assessment and helps you validate your migration plan through a pilot project. It involves:

- Migrating a select set of VMs from VMware to Azure.
- Testing the migrated VMs in the Azure environment.
- Verifying performance, security, and functionality.
- Providing insights and adjustments for the full-scale migration.

Managed and Secure Cloud Environment

On-premise VMware services
- VMware VMs
- vmware vSphere
- NSX-T
- VMware vSAN

Path 1: Migrate to Azure VMs

Azure Migrate / Movere — LIGHTNING
Sonata Assessment for Optimized environment

Azure VMs - IaaS
Secure Landing Zone

MIGRATE
- Azure Migrate and Site Recovery tools for migration

OPTIMIZE
- Smoke test and configure
- Optimize based on Usage

ASSESS
- Tool based Data Collection
- AI based Analysis & Disposition

CONTAINERIZE
- Azure Migrate Containerize tool

OPTIMISE
- Smoke test and configure
- Optimize based on Usage

Path 2: Containerize to Azure PaaS

Azure Migrate / App Containerization Tool — LIGHTNING

Azure Kubernetes Service

Azure App Service

Secure Landing Zone

Highly Scalable and Secure Cloud Environment

Path 1: Solution summary
- Secure (adhering to MCSB standards)
- Highly Available
- Reduced costs
- Up-to 40% faster migration (using Sonata & Microsoft tools & accelerators)

Path 2: Solution summary
- Secure (adhering to MCSB standards)
- Highly Available
- Modern architecture adhering to Azure Well Architected Framework
- Cost Effective
- Up-to 40% faster migration (using Sonata & Microsoft tools & accelerators)

SONATA SOFTWARE

Value to Your Business

Key Benefits

- **Reduced Risk:** Clear understanding before committing resources
- **Cost Optimization:** Up to 70% savings with 3-year Azure reservations
- **Faster Migration:** 20-40% quicker with Sonata tools & accelerators
- **Improved Decision Making:** Insights from pilot for informed choices

Business Outcome

- **Stability** & consistency
- Leverage **Azure Hybrid Benefit** for Windows Server licensing savings
- **Modernize with Azure** Virtual Desktop, Backup, and Site Recovery
- **Access to greater compute,** storage, and networking capabilities

Why Partner with Sonata?

- **Pre-packaged and Streamlined:** Sonata's solutions offer a standardized approach, reducing complexity and accelerating your migration timeline.
- **Cost Optimization Focus:** Our assessment helps identify the most cost-effective migration strategy, potentially saving your business money on Azure resource allocation.
- **Expertise in VMware and Azure:** Partnering with Sonata leverages our expertise in both platforms, ensuring a smooth transition to Azure.

Take the First Step Towards a Seamless Azure Migration

Contact us today to schedule your VMware to Azure migration assessment.

Sonata, a leading billion-dollar modernization engineering company, has been a proud Microsoft partner for over 30 years. With a portfolio of over 400 clients globally for Microsoft-specific projects, including multiple Fortune 500 companies, we bring extensive experience and expertise to every migration project.
